Alert number 0077/06

Notifying country Portugal

Product category Lighters

Type Consumer

Product

Brand Unknown

Product description Novelty lighters of different shapes.Brand: Unknown.

Risk type Burns
Fire

Risk description The lighters come under the definition of "novelty lighter" set out in European Standard EN 13869: "Lighters. Child-resistance for lighters. Safety requirements and test methods". It was found that the lighters present a risk of burns, in view of their characteristics, particularly as they are objects that are likely to be attractive to children, especially small children under 51 months, and the lack of labelling or indications concerning how the flame is produced. It should also be pointed out that the light effects produced by lighters Nos 9, 10 and 17 are even more likely to give the impression that they are toys.

Country of origin Unknown

Measures ordered by public authorities Other : Withdrawal from the market ordered by authority.

Notifying country Hungary

Product category Lighting equipment

Type Consumer

Product

Brand Unknown

Product description Hanging lamp with TM35L type lighting chain.Brand: Unknown. Type/model: Art. No 13732.

Risk type Electric shock
Fire

Risk description There is a risk of electric shock because: the mains cable was only knotted on the metal frame of the luminaire, the cord anchorage has sharp metal edges (thus the cable may get damaged) and the device does not provide effective protection against pulling and twisting. There is a risk of fire because the insulation material does not have sufficient resistance to flame.

Country of origin Unknown

Measures ordered by public authorities Other : Recall ordered by authority.

Product description	Multi-purpose ladder, three sections.Brand: hvs. Name: Multi-purpose ladder, three sections.Type/model: hvs 1021 (3*7), 1027(3*9), 1033 (3*11), 1024(3*8), 9378(3*8).
Risk type	Injuries
Risk description	1. Problem with hinges: Because of the incorrect construction of the hinges, the ladder becomes unstable when it is set upright and can collapse. 2. Problem with straps: The straps which are supposed to prevent the ladder from sliding apart are made from material which is not resistant to ageing. They lose almost 100% of their tensile strength within a very short time (one year). 16 accidents have happened so far.
