Product category **Decorative articles**

Type **Consumer**

Product ** **

Brand **Unknown**

Product description **Decorative candle with sunflower seeds in the shape of a cylinder, wrapped up in transparent colourless cellophane.Type/model: Unknown.**

Risk type **Burns
Fire**

Risk description **This product poses a risk of burns and fire because during combustion of the candle, the sunflower seeds incorporated in the candle catch fire and a particularly powerful flame reaches height of approximately 10-11cm, resulting in a total destruction of the candle. Given the flame intensity, it is likely that burns may occur. Under certain conditions, a fire can also be generated in closed spaces, due to the powerful flame.**

Notifying country	Spain
Product category	Machinery
Type	Consumer
Product	&nbsp;
Brand	Unknown
Product description	mini motorbike "CMM"Type/model: Superminicross 125 CC.
Risk type	Burns Cuts Injuries
Risk description	The use of this machine is extremely dangerous and it could injure the rider or any other person in the vicinity because: - a finger can easily be inserted up to the sprocket since the chain guard near the sprocket is insufficient; - there is no chain guard near the gear cog to prevent trapping between the gear cog and the chain; - the lateral protection of the exhaust heats up to 84°C and the bend of the exhaust pipe in the foot area heats up to 230°C; the product contains sharp edges, such as the panels for protecting the underside and the brake pedal; - the intake air filter falls off when touched and it is in a position where it can easily be hit by a foot; - the operation of the fuel shutoff valve is awkward since the plastic parts of the bodywork make it difficult to operate; - the throttle (air) does not stay in position; - the steering stop damages the lower end of the fork; - the noise level is excessive; - the warning information and instruction manual are incomplete. The product does not comply with the Machinery Directive.

No type marking in the detachable mains cord

Product description

Detachable mains cord (supplied with portable DVD player "SeViC") Product number SV100670D on the portable DVD player package. EAN of the package: 4 045365 701441. Consumers may build personal computers themselves. Instructions how to build your own personal computer are available on the internet. In this case the consumers buy computer components and install e.g. a motherboard, a hard drive, CD/DVD drives and a power supply unit to the computer casing.

Risk type

Electric shock

Risk description

The detachable mains cord poses a risk of electric shock when used with the portable DVD player it is supplied with because: - the power supply unit has a class I appliance inlet and the plug of the cord set delivered with the portable DVD player is of class II and the connector of the cord set is of class I (the protective earth terminal of the connector is not used) although the plug and the connector should be of a type intended for the connection of the same class of equipment and the cord set should be rated according to class of the plug and the connector; - the plug is 2.5 A and the rated current of the connector is 10 A although the rated current of the plug should not be less

than the rated current of the connector. This product does not comply with the Low Voltage Directive and the European Standard EN 60065.
