Product category	Electrical appliances and equipment
Type	Consumer
Product	
Brand	Unknown
Type / number of model	CCC-PSU4 (on the package)
Barcode	8 716309 025973
Product description	<p>Electric power supply unit for building-in “GEMBIRD” Remark: Consumers may build personal computers themselves. Instructions how to build your own personal computer are available on the internet. In this case the consumers buy computer components and install e.g. a motherboard, a hard drive, CD/DVD drives and a power supply unit to the computer casing.</p>
Risk type	Electric shock
Risk description	<p>There is a risk of electric shock due to the fact that there is not sufficient electrical insulation in the mains transformer between the primary and the secondary windings. Secondary circuit of a computer is touched when, e.g., connecting peripheral devices such as a printer, a monitor and multimedia speakers and also when touching these peripheral devices. While the electrical insulation in the mains</p>

transformer of the power supply unit between the primary and the secondary windings is insufficient, the mains voltage may exist in the secondary circuit in case of a single fault condition. This causes a risk of electric shock. This product does not comply with the Low Voltage Directive and the European Standard EN 60950.

Country of origin People's Republic of China

Measures ordered by public authorities Other : Recall from consumers ordered by the authority.

Product description Computer battery Pack "Apple Branded (manufactured by Sony)" Type/model: The models are: A1061 (for the 12-inch iBook), A1079 (for the 12-inch PowerBook), and A1078 and A1148 (for the 15-inch PowerBook).

Risk type Burns
Fire

Risk description An internal fault within the battery cell can cause shorting and thermal runaway, which in turn can cause overheating which could result in extreme heat and/or flaming combustion. If that were to occur, it is possible that combustible materials in contact with such a Battery Pack could be damaged (singed, charred, melted or burned) and that burns or other injuries could result. Apple has been notified of a total of fourteen incidents, of which eleven were in the US and one each in Canada, Japan and the UK. Minor burns were reported in two of the US incidents and the one in Japan. In addition, while several customers' computers have been damaged, no other injuries or substantial property damage has been reported.

Product description	<p>Christmas Stocking “The Snow White Collection / Baby’s 1st Christmas Stocking”Type/model: Item no. 55317.Description: The product consists of a fabric Christmas stocking approximately 30cm by 12cm. These products are supplied in a clear plastic bag. A card tag is attached to each item bearing the following information “Distributed by: The Snow White Collection, PSL International, 9 Stocks Street, Manchester, M8 8GW.Warning Keep away from fire, 55317”.</p>
Risk type	Choking Injuries
Risk description	<p>The “Baby’s 1st” Christmas Stocking is considered to pose a serious risk of choking or injury to babies and young children due to the “eyes” and “sequins” on the product becoming detached. Initial tests on the stocking showed that the eyes could become detached at forces as low as 2.4N, and sequins could become detached at forces as low as 3.4N. The expert stated that the nature of the product means that it would come into contact with young children and is likely that it would be played with by a child. The expert was of the opinion that the “eyes” and “sequins” could be picked or bitten off by</p>

young children and could cause a choking hazard. If inhaled, these components could pass into the larynx of even a newborn baby, and could become lodged in a bronchus, causing significant safety concerns for babies and young children.
