Product Super Plane DeLuxe F 19 XL - Helicopter (TOYS)

Brand Unknown

Type / number of model 528

Risk type Damage to sight  
Injuries

Risk description One incident reported. Risk of damage to sight. This product poses a risk of damage to sight because the metal rivets that are placed in the end of the prolonged support of the directional rudder contain sharp edges. The rotor of the helicopter does not have a ring around the perimeter in order to reduce the risk of injury. This product does not comply with the Toys Directive and the relevant European standard EN 71-1.

Type Consumer

Product Shocking toy pistol (JOKE ITEM)

Brand Unknown

Type / number of model 1750

Barcode 927111505207

Risk type Electric shock

Risk description The toy pistol incorporates an electric circuit powered by a battery, which generates a series of pulses with a maximum peak voltage of 1047.6 volts. Electric discharge voltage depends on the speed by which the trigger is pulled. Particularly, pressure increase implies maximum voltage rate increase. This is certainly unpleasant and may be harmful to particularly susceptible persons or those wearing pacemakers. There are no user warnings on the product itself.

Notifying country	Germany
Product category	Motor vehicles
Type	Consumer
Product	Caravan "Bürstner"
Brand	Unknown
EC-type approval/model	1010, Bürstner T-Models (partially integrated)
Company recall code	Bar Code/Batch code : e1*2001/116*0208*00-06
Product description	The vehicles concerned are those of the model years 2001-2006 based on the Fiat Ducato or Citroen Jumper flatbed models.
Risk type	Injuries
Risk description	The spare wheel mounting may loosen thus the spare wheel may detached while the vehicle is in motion and so endangering the vehicle user and other road users. One incident (without injury) has been reported.
Country of origin	Germany
Measures taken by economic operators	Other : Voluntary corrective action by the manufacturer. Other

Notifying country	Germany
Product category	Hobby/sports equipment
Type	Consumer
Product	“Time” RXS/RXE bicycle pedals
Brand	Unknown
Type / number of model	Time RXE road pedals, Time RXS, Time RXS Carbon, Time RXS Ti Carbon
Product description	This notification relates to pedals of the model years 2004-2006.
Risk type	Injuries
Risk description	The product poses a risk of injury because the screw fastening of the pedal shaft on the right pedal may slacken in use, allowing the pedal to become detached. This may cause the rider to lose control of the bicycle and fall. Two accidents have been reported.
Country of origin	France
Measures taken by economic operators	Other : Voluntary corrective action by the wholesaler. Other

Product category Toys

Type Consumer

Product Policeman toy set "SUPER POLICE"

Brand Unknown

Type / number of model 306C

Risk type Choking  
Injuries

Risk description The product poses a risk of choking and eye injury because during traction test, suction cups detach from arrows using only 60 N + 2 N force. These 'small parts' may be easily swallowed and cause choking if the child puts them into his mouth. When the protective suction cup is removed and the projectile hits someone in the eye, there is a risk of injury. The product does not comply with the Toys Directive and the relevant European standard EN 71-1.

Product category Decorative articles

Type Consumer

Product &nbsp;

Brand Unknown

Type / number of model 238000899

Product description Clear ice cubes - irregular lumps of transparent, hard, uncoloured plastic, with sharp edges sometimes running to a point.

Risk type Choking

Risk description The product may be mistaken for food (sweets) or mistakenly used as ice cubes. It has sharp edges and can be swallowed in whole. The product thereby poses a risk of ingestion, health hazard from choking and displacement of the digestive tract. Investigation regarding the safety of similar products is pending.

Country of origin Italy

Measures ordered by public authorities Other : Sales ban and recall from consumers ordered by the authority.

Product	Pressurised air cartridge for sport and hunting rifles "Anschütz"
Brand	Unknown
Type / number of model	1. cartridge, anodised silver, 430 mm long: from 012947 to 016846, Art. No. 711.3415, 2. Cartridge, anodised red, 430 mm long: from 002444 to 002527, Art. No. 711.3414, 3. Cartridge, anodised black, 430 mm long: from 000006 to 000053, Art. No. 711.3413, 4. Cartridge, Junior, 290 mm long: from 001632 to 002225, Art. No. 711.3412
Product description	The aluminium cartridges are numbered in a continuous series
Risk type	Injuries
Risk description	The product poses a risk of explosive separation of the pressure gauge or fill-valve. Three incidents of burst cartridges have been reported since August 2006. The most serious accident occurred when a cartridge separated from the fill-valve during loading, hitting the marksman's hand. The marksman suffered considerable lacerations to the inner surface of the hand. The product does not comply with Directive on transportable pressure equipment.

Product Oil Cooler Hose in Mitsubishi Lancer Diesel Sedan passenger car

Brand Mitsubishi

Product description The recall concerns vehicles with production year 1993.

Risk type Injuries

Risk description Due to the improper design of the oil cooler hose, the clearance between towing hook and the engine oil cooler hose is not sufficient. This could lead to possible damage of the engine oil cooler hose and the engine oil cooler itself, resulting in insufficient cooling of the engine oil. The above condition may cause insufficient lubrication of the diesel engine, with possible damage to the engine and loss of control of the vehicle.

Notifying country	Greece
Product category	Motor vehicles
Type	Consumer
Product	Passenger car
Name	Intercooler outlet pipe in Suzuki Grand Vitara Turbodiesel 1.9
Brand	Suzuki
EC-type approval/model	Suzuki Grand Vitara Turbodiesel 1.9
Product description	The recall concerns vehicles with chassis numbers from JSAJTA44V00107438 to JSAJTA44V00201289 (3D) and from JSAJTD44V00106868 to JSAJTD44V00205350 (5D).
Risk type	Fire
Risk description	Due to the improper design of the intercooler outlet pipe and insufficient tightening of the intercooler inlet hose clump, they could slip off and cause the improper ratio of air/fuel mixture. The above condition may cause excessive deposition of carbon particulate in DPF (Diesel Particulate Filter) system that could burn up and result in the overheating or melting of DPF. In the worst case, DPF may catch fire.

Product Throttle Position Sensor (TPS) in Yamaha motorcycle

Brand Yamaha

EC-type approval/model FJR1300/1300A, FZ6-N/S, MT01, TDM900/900A, XT660R/X, XV1700PC, YZF-R1

Product description Affected motorcycles were built until 2005.

Risk type Injuries

Risk description An improperly designed Throttle Position Sensor (TPS) could cause an intermittently unstable idle when the motorcycle is stopped or during low-speed operation. The engine could stall as a result. If the engine stalls after the operator disengages the clutch in a low gear while riding, the rear tire might slip momentarily if the operator abruptly re-engages the clutch. This could lead to loss of control of the motorcycle.
