Product XV 1600 motorcycle "Yamaha"

Brand Yamaha

EC-type approval/model VP08, EC type-approval e1*92/61*00029

Product description All vehicles manufactured in the years 1999 to 2002 with Vehicle Identification Numbers in the following ranges are affected: JYAVP08100000301 to JYAVP081000010047
JYAVP081000010392 to JYAVP081000012035
JYAVP081000012997 to JYAVP081000013612
JYAVP081000015201 to JYAVP081000016852

Risk type Injuries

Risk description These vehicles can exhibit various defects: - the fourth-gear sprocket on the gearbox main shaft can shift axially, since the circlip may slip out of the groove, - a dog on the fourth-gear sprocket on the layshaft may break off in the event of a violent gear-change. The main shaft including the fourth-gear sprocket and the associated clips and washers must be replaced on all vehicles. The fourth-gear sprocket on the layshaft must also be replaced with a modified, reinforced version.

Product category Lighters

Type Consumer

Product

Brand Unknown

Product description Four novelty lighters (brand unknown) in the form of a 1. pistol 2. sailing boat 3. mobile phone (three types) 4. carbine-swivel

Risk type Burns

Risk description By the appearance of the products their intended use (as a lighter) is not obvious and they can be considered as novelty lighters. According to the European Standard a lighter shall not be novelty-like, because the inherent risk is significantly higher. The novelty lighters are attractive for children and taking into account children's normal behaviour risk of

burning injury is present during their use. There were no instructions for the safe use attached to the products in Hungarian.

Product	Soft toys "Paul Import GmbH"
Name	1) Soft toy monkey; 2) Soft toy dog; 3) Soft toy duck.
Brand	ory: TOYS.Soft toys "Paul Import GmbH"
Type / number of model	1) Not available, 2) Not available, 3) 5302
Barcode	3) 4026272053021
Risk type	Choking
Risk description	These products are classified as toys for children under 36 months and they must therefore not contain any "small parts" which could be swallowed. These toys are dangerous because the suction cup attached can be ripped off with little effort (1) 37N, 2) 45N, 3) 16N) and can be swallowed although they are small parts. These products do not comply with the Toys Directive and the relevant European standard EN 71-1.

Notifying country	Germany
Product category	Toys
Type	Consumer
Product	
Brand	Unknown
Barcode	9 316729 150003
Product description	Soft toy in shape of an eagle “Nowa Toy”
Risk type	Choking
Risk description	The suction pad on the product is a “small part” which can be swallowed. If this part is pulled off and a child puts it into his mouth, there is a risk of choking. During the tensile test, the fabric band tore at 21N which is less than required. The entire suction pad could then pass through test cylinder E although this is prohibited for suction pads which can be detached or become loose. The suction pad also fits into the cylinder for small parts. This product does not comply with the Toys Directive and the relevant European standard EN 71-1.
Country of origin	Australia
Measures taken by economic operators	Other : Voluntary stop of sales and withdrawal from the market. Other

Product description Squeaky toy dog with key ring pendant.

Risk type Choking

Risk description The product contains a number of small parts which can be swallowed. These include, in particular, the key ring with the chain, the squeeze valve and the eyes. If these parts are pulled off or out and a child places them in his mouth, there is a risk of choking. During the tensile test, the key ring slipped off the neck of the toy at 18 N which is less than required. The entire key ring, together with the chain, could then pass through the cylinder for small parts. This product does not comply with the Toys Directive and the relevant European standard EN 71-1.

Alert number	<u>0713/06</u>
Notifying country	Germany
Product category	Motor vehicles
Type	Consumer
Product	Passenger car “BMW 5-series E34 Touring”
Brand	BMW
EC-type approval/model	5/HE700/1
Product description	Production of affected vehicles took place between May 1995 and June 1996. Only vehicles with steering lock by the manufacturer Valeo and without interlock-system may be affected.
Risk type	Injuries
Risk description	The product poses a risk of injury because in high-use vehicles, the oscillation fracture can progress so far as to lead to steering lock cam fracture. This normally happens when the vehicle is started, so it cannot be driven. In exceptional cases, the vehicle can be started and the vibration caused by the subsequent movement can cause the steering lock disk to shift into the lock position, immobilising the steering. Therefore, it cannot be ruled out that a failure occurs while driving, leading to critical situations and accidents.
Country of origin	Germany
Measures taken by economic operators	Other : Voluntary corrective action by the producer. Other

Type	Consumer
Product	Lamps for outdoor use "CASTORAMA, SOLTERA" (220 V)
Brand	Unknown
Type / number of model	Soltera torch-style wall light - Navalo series 487925, Soltera "Borne" (low bollard light) - Navalo series 487929, Soltera "Potelet" (bollard light) - Navalo series 487942
Risk type	Electric shock
Risk description	This product poses a risk of electric shock because the curved plastic element may melt and lose its shape, as a result of which it may no longer be guaranteed to be watertight. The flaw lies within the plastic tube, which is made up of two types of plastic soldered ultrasonically. The plastic tube is sealed by a plastic disc to which the wooden cap is attached with three screws. The change in the type of plastic used for this disc could be the source of the flaw that resulted in loss of shape and caused the lamp to lose its watertightness during endurance tests.

Product Children jacket "H&M"

Brand H&M

Type / number of model 931960-7952, 931961-7952

Risk type Chemical
Choking

Risk description This product poses: - risk of choking because a child might be able to detach the compass house or break it and put in to the mouth; - chemical risk because the compass house contains a mineral oil of alkanes C10-C16 which, if swallowed, can cause chemical pneumonia. One accident reported. A one year old boy in Denmark managed to break the compass with his teeth. The boy got the liquid from the compass house into his lungs and swallowed a rubber ring. He was treated in hospital.
