Notifying country Hungary

Product category Lighting equipment

Type	Consumer
Product	
Name	Ceiling lamps with 2D fluorescent lamp (fixed luminaire).
Brand	Litecom
Type / number of model	1. 2011/21W (type version: 2011/38W), 2. A09/28W (type version: A08/21W), 3. A05/38W (type version: A05/21W)
Risk type	Electric shock
Risk description	- the instruction of installation does not refer to the product in question. The products pose a serious risk of fire because the external plastic cover of the terminal block (product 1) or the plastic cover of the electronic ballast (products 2 and 3) catch fire and burning does not stop within the time limit specified in the standard. The products pose a serious risk of electric shock because:- the free wires of the stranded conductor can get into contact with accessible metal parts; The products do not comply with the Low Voltage Directive and the relevant European standard EN 60598.
Country of origin	People's Republic of China
Measures ordered by public authorities	Other : Sales ban ordered by the authorities. Other

Product category	Electrical appliances and equipment
Type	Consumer
Product	Three-socket extension cord with a child safety switch
Brand	KF
Type / number of model	KF-FB-03
Risk type	Electric shock Injuries
Risk description	The extension cord is not safe as its insulation may be damaged under certain circumstances which can cause injury by electric current and fire hazard. In particular, the product suffers from the following non-compliances with standards: - the tensile strength of insulation is less than the 10 MPa required (green-yellow - measured value of 6.87 MPa, blue - measured value of 8.19 MPa, brown - measured value of 7.76

MPa) ; - as to vertical spread of fire, the entire product burns. The product does not comply with the Low Voltage Directive and the relevant European standards EN 60811 and EN 50265.

Country of origin People's Republic of China

Measures taken by economic operators Other : Voluntary withdrawal of the product from the market and warning of customers by the supplier

Notifying country Czechia

Product category Furniture

Type Consumer

Product Folding chair

Brand Unknown

Barcode 4003368173009

Risk type Injuries

Risk description The product poses a serious risk of crash/jam/brake of fingers because it does not have a locking mechanism when unfolded. When attempting to move the chair by lifting the seat, there is a possible risk of shear and squeeze point between movable parts of the folding construction of the product. The product does not comply with the relevant European standard EN 581. An incident where both hands of an eight year old child were injured (the fingers were trapped between movable parts of the chair) has been reported.

Notifying country	The Netherlands
Product category	Chemical products
Type	Consumer
Product	Decalcifier
Brand	Imperial / Miele 'CC' Decalcifier
Type / number of model	No. 2.673
Barcode	8027281400013
Risk type	Chemical Injuries
Risk description	- although this product is classified as corrosive, it is labelled as irritant only. Therefore, consumers are not informed about the true risks posed by the product. - about half of the closing caps are leaking. It is therefore likely that consumers have skin contact with the fluid and inhale the vapour. It is also not unlikely that consumers contaminate their fingers and consequently touch their eyes. Skin contact will cause burns, inhalation may cause irritation of the airways, and eye contact may cause injuries. The product poses a chemical risk because it contains approximately 25% of formic acid and a small amount of 2-butyn-1,4-diol.

Product Garden torches

Brand Aristo

Type / number of model Paris Antique - 823629, Roma - 8 A823619, Vienne GM ACI - 828691

Risk type Fire

Risk description The garden torches were found to be dangerous because the various parts are not secured. They consist of components (fuel container, wick guide) which are not fixed to the items on which they are mounted and which can become detached, giving rise to a fire hazard when the fuel spills out. Since the various components of the torch are not secured, there is a risk of fire or of the user's sustaining burns, if the torch is accidentally knocked over.

Country of origin Denmark

Measures taken by economic operators Other : Voluntary withdrawal from the market by the distributor.

Product category	Electrical appliances and equipment
Type	Consumer
Product	Picture light with sports car
Brand	Collection Roby
Type / number of model	187/7783
Barcode	8435116 277831
Risk type	Electric shock
Risk description	The product has several serious shortcomings with regard to electrical safety, comprising essential aspects of classification, marking, construction, and protection against electric shock and creepage, and can therefore be considered to be very dangerous. In particular: - the lamp does not offer sufficient protection against electric shocks; -various parts of the lamp have no double insulation; - perforation occurs in the dielectric strength test; - creepage and air gaps are smaller than required; - the lamp does not comply with the requirements for mounting slits; - the inside cable of the lamp does not comply with the requirements; - the anchoring system incorporated into the lamp is non-compliant; - the lamp provides no classification for the protection against electric shocks, for the degree of protection or for the material of the supporting surface; - there is no necessary marking on

the lamps. The product does not comply with the LVD Directive and the relevant European standard EN 60598.

Notifying country France

Product category Toys

Type Consumer

Product Baby buggy for dolls

Brand MDJ Distribution

Type / number of model 14 XI 0052

Barcode 3564531025026

Risk type Injuries

Risk description The product poses a risk of injury because it collapses during the 50kg load test, in an unlocked, partially unfolded position, with places where fingers could get trapped. Due to this non-compliance, the product poses an unacceptable risk for children of trapped and/or crushed fingers. The toy does not comply with the Toys Directive and the relevant European standard EN 71-1.

Product category Toys

Type Consumer

Product Plastic toy- dragon with drum

Brand Dragon baby

Type / number of model 2102

Risk type Choking

Risk description The graphic symbol indicating that the toy is not suitable for children under 3 years is displayed on the box. However, given the toy's nature and functions, it is in fact intended for this age group. This product poses a serious risk of choking because the small parts detached and became accessible for children during the drop test. A child can swallow or choke on the small parts which became detached. The warnings which must be placed on toys with batteries are incomplete. This toy does not comply with the Toys Directive and the Toys Standard.

Notifying country	United Kingdom
Product category	Protective equipment
Type	Consumer
Product	Professional Lifejacket with green outer cover
Brand	Englands
Product description	Type/Number of models: ONLY those purchased between September 1997 and July 2006
Risk type	Drowning
Risk description	Manual operation of lifejacket requires force greater than standard allows to operate. Fault was identified by manufacturer as fault with FITTING of a particular “UML” Firing Head into this specific model. Tight packing of the outer cover can sometimes lead to a restriction of the manual operation pull cord. Where fitted, the automatic operation for inflation of these lifejackets is NOT affected. The inflation tag was subjected to the forces as required by EN 396:1993 part 6.8.4. and the firing head failed to operate at the maximum allowable force of 120 N (+2N).
Country of origin	United Kingdom
Measures taken by economic operators	Other : Voluntary recall from consumers ordered by the manufacturer Other
