Product **Electric touch lamp**

Brand **Unknown**

Product description **Category: Lighting equipment Product: Electric touch lamp Brand: ELCO Millenium Electronic Company Finland Type/number of model: EL-276 (various names depending on the form of the lampshade: Fish Tail, Crescent Moon, Water Drop, Umbrella)**

Risk type **Electric shock
Injuries**

Risk description **The product poses a serious risk of electric shock because: - sharp edges protrude into the wireways; - the basic insulated wires get into contact with accessible metal parts; - there is no cord anchorage preventing wires from pulling and twisting; - the protecting tubes are unfixed; - the insulation between the live and accessible parts is not appropriate since flashover occurred. This lamp also poses a serious risk of injuries because sharp external metal edges of the luminaire may cause injury. This product does not comply with the Low Voltage Directive and the relevant European standard EN 60598.**

Product **Angle Grinder**

Brand **Unknown**

Product description **Category: Machinery Product: Angle Grinder Brand: Blaucraft Type/number of model: BWS 115**

Risk type **Electric shock
Injuries**

Risk description **Protection of the cable is made of the material with inappropriate flexibility and mechanical resistance. This may lead to the damage of power supply cable vain and be the source of insufficient insulation which can cause the risk of electric shock. The content and composition of the user manual (lack of adequate warnings concerning safe use) may lead to the misuse of the grinder and therefore be the cause of external injuries (machinery of that type cannot be used safely without proper user manual). This product does not comply with the Machinery Directive and the relevant European standards EN 50144 and EN 60555.**

Product	Eraser
Brand	Unknown
Product description	Category: StationeryProduct: EraserBrand: UnknownType/number of model: ZD 788 - 4, bar code: 0 249356 000030
Risk type	Chemical
Risk description	The product poses a chemical risk because it contains dibutyl phthalate (DBP) in a greater quantity than 0,5% w/w by content di-n-octyl phthalate in quantity greater than 20% by weight. DBP is classified as toxic and may impair fertility or cause harm to an unborn child. Di-n-octyl phthalate is characterized as irritant to the skin and causes serious eye damage. Given the fact that the eraser is used mainly by children and given the usual behaviour of children, namely chewing and sucking of things they keep in their hands, this product is particularly dangerous to children.
