Product category	<b>Lighting equipment</b>
Type	<b>Consumer</b>
Product	<b>Pendant luminaire</b>
Brand	<b>Pot and Mand</b>
Type / number of model	<b>- 614703 Antique zilver lamp puntvorm, - 614706 Antique pearl lamp puntvorm, - 614707 Antique zilver lamp puntvorm</b>
Product description	<b>No packaging. The product is a pendant luminaire. It hangs from the ceiling in 2 stages; first stage by a single metal chain and second stage by 3 short metal chains. It is spherical in the shape of an inverted pyramid.</b>
Risk type	<b>Electric shock</b>
Risk description	<b>This product poses a risk of electric shock because the unit has been incorrectly wired because the earth conductor has been incorrectly connected to the LIVE terminal. In addition, the LIVE conductor has been cut short and left, with the end uncovered, inside the metal tube of the unit. Therefore, upon investigation as to why the bulb is not illuminating, a user could come into contact with the live metal pendant and without the protection of the earth, would come into contact with a hazardous voltage. This product does not comply with the relevant European standard EN 60598.</b>
Country of origin	<b>The Netherlands</b>

Product **"UFO SUPER ELECTRONIC SPACESHIP" musical spaceship with lights**

Brand **CISL**

Type / number of model **Ref. N316GI5369B**

Product description **Silver-coloured musical spaceship with lights. Packaging consists of a cardboard box with a clear plastic window at the front.**

Risk type **Injuries**

Risk description **This toy poses a risk of injuries because: - the casing broke in half during the drop test; - parts of different polarity (battery contacts) can short-circuit in the battery casing by means of a stiff metal wire 0.5 mm in diameter, which can cause the temperature of the batteries to rise higher than it is permitted by the standard; - wheels of the vehicle came off when a force of less than 60 N was applied, exposing dangerous spindles; - there is no information about the batteries. This product does not comply with the Toys Directive and the relevant European standards EN 71-1 and EN 50088.**

Product **Motorbike - rare brake**

Brand **KTM**

EC-type approval/model **Motorcycles, model 990 Adventure ABS 2006 and 2007**

Product description **2006 and 2007 model year motorcycles**

Risk type **Injuries**

Risk description **Cause of an accident due to reduction of the braking ability of the motorbike. On the affected motorcycles, air bubbles discharged from the brake fluid caused by vibrations in certain driving situations cause a rear brake malfunction in the brake system. Due to the modified routing and the shorter hoses, the hydraulic system is put out of tune and the brake fluid won't emit gas. This could affect the braking ability of the motorcycle. The ABS system and the front brake work properly, even if the rear brake may malfunction.**
