Product Set of plastic toys - 'Toys for funny play'

Brand Unknown

Type / number of model Code 06902758098428

Product description The set of toys contains three coloured and flexible plastic figures: one pink octopus, two blue fishes and one yellow fish.

Risk type Chemical

Risk description This toy poses a chemical risk because it contains 1,4 % by weight of butylbenzylphthalate (BBP) and 0.46 % by weight of bis 2-ethylhexyl phthalate (DEHP). This toy does not comply with the Chemicals Restrictions Directive 76/769/EEC.

Country of origin People's Republic of China

Product category Motor vehicles

Type Consumer

Product Passenger car - Ford Focus

Brand Ford

EC-type approval/model Ford Focus and Ford Focus C-Max

Product description Ford vehicles built between 2 April 2003 and 3 March 2005

Risk type Injuries

Risk description This product poses a serious risk of injuries because it is equipped with rear windscreen washer/wipers and water can work its way into the wiper motor via the wiper arm spindle. If the water contains salt, which is normal under winter driving conditions, it can result in a short circuit and cause the motor to fail. In extreme cases, the short circuit can result in the wiper assembly overheating. The increased temperature can be high enough to melt the trim components in the area of the motor assembly.

Alert number 0541/07

Notifying country	Germany
Product category	Electrical appliances and equipment
Type	Consumer
Product	Pizza pan
Brand	Diamant
Type / number of model	Safa
Product description	Pizza pan, diameter approximately 36 cm, 230 V, 1 500 W, 50-60 Hz.
Risk type	Electric shock
Risk description	The product poses a serious risk of electric shock because : - the earth wire is not longer than the conductors carrying current. If the lead is pulled out of the plug housing, the earth wire does not break only after the conductors carrying current; it is therefore ineffective; - the cross-section of the mains connection lead is too small (only 0.75 mm <sup>2</sup> ). The cross-section must be at least 1 mm <sup>2</sup> for appliances with a rated current of 6.5 A; - the appliance is not equipped with a pull-relief device, with the result that the conductors are not protected from pulling, including twisting, at the point at which they are connected inside the appliance and the insulation is protected against abrasion. This results in a risk of electric shock; - the screw intended to secure the earth connection is not protected against accidentally coming loose.

Earth clamps must be protected against accidentally coming loose. This product does not comply with the Low Voltage Directive and the relevant standards.

Country of origin      Unknown

Measures taken by economic operators      Other : Voluntary withdrawal from the market by the retailer

Product	Bicycle child seat - Kitty bike 'Blue notte'
Brand	Bellelli Accessories
Type / number of model	Bar code: 8 020092 823099
Product description	It is a bike seat for children up to 7 years old and weight up to 22 kg. The seat is intended to be installed in the back of a bicycle. The seat is made of dark blue coloured plastic. At the back of the seat there are marks: "b" (from Bellelli), "date of production 5/05", "TÜV Product set" and pictograms "not to leave the child in a seat on the bike" and "use the helmet while being carrying in a bike seat".
Risk type	Injuries
Risk description	This product poses a serious risk of injuries because : - the way of putting the screw on with the plastic slat is inadequate, so that the screw becomes less effective when the seat is used. This may result in a loss of stability of the seat and falling of the child; - the dimensions of the seat are inappropriate: the bicycle back seat should have at least a 400 mm high backrest, while the Kitty bike has only 335 mm. This unconformity can lead to head and neck injuries; - insufficient capacity - during tests the backrest of the seat

deforms and breaks and sharp edges become accessible; - the clamping screw in the seat is placed between child's legs and sticks out over the seat which can cause injuries; - the clamping screw has insufficient protection against loosening which can result in the falling of a child and driver of the bicycle. The product does not comply with the relevant European standard EN 14344.

Product category	Lighting equipment
Type	Consumer
Product	Incandescent floor lamp
Brand	Markslöjd/Bergen
Type / number of model	type: 1862; EAN: 7 392254 138213
Product description	Floor-standing incandescent luminaire which main parts are made of metal.
Risk type	Electric shock
Risk description	This product poses a serious risk of electric shock because : - the locking screw of the joint of the bracket penetrates into the wire ways. When the screw is tightened, internal conductors are pressed between the joint and the screw. When the luminaire is adjusted, the screw grinds the insulation of the conductor; - the luminaire is a self-assembly product. In the instructions it is stated that the screw shall be tightened. During the electric strength test, after about 20 adjustments, there was a breakdown at a voltage of ca 500 V. The requirement is 3670 V after 1500 adjustments; - the creepage distance over the bushing of the opening of the flexible cord to the metal main part is only about 1 mm, it shall be minimum 3.6 mm. Creepage distance between the conductor of the supply cord and metal body is about 0.6 mm,

it shall be minimum 3.6 mm. There is no protective sleeve at the bifurcation of the cord. This product does not comply with the Low Voltage Directive and the relevant European standard EN 60598.
