Product Passenger car - Ford New Transit

Brand Ford

EC-type approval/model Van, model New Transit (FWD & RWD)

Product description The recall (No 7C108) concerns Ford New Transit (FWD & RWD) vehicles produced from 21 October 2005 to 27 April 2007 (produced in Otosan, Turkey) and from 1 December 2005 to 27 April 2007 (produced in Southampton, UK).

Risk type Injuries

Risk description This product poses a serious risk of injuries because it may be possible for the front shock absorber to move in its lower mounting. Movement of the shock absorber in its lower mounting could possibly result in the tyre contacting the wheel arch, or in the case of FWD vehicles, the shock absorber contacting the driveshaft, worsening the vehicle's road behaviour.

Product Passenger car - Škoda Octavia

Brand Unknown

EC-type approval/model cles Product: Passenger car - Škoda Octavia Brand: Škoda
Type/number of model Škoda Octavia II, 2.0 TDI

Product description The recall concerns vehicles with production years from 2004 to 2005.

Risk type Fire

Risk description The product poses a serious risk of fire because in the engine, due to the rise in temperature, the area close to the clutch can burst into flames. It can occur owing to the friction of the defective flywheel against the casing of the gearbox. In unfavourable conditions this can lead to a fire in the vehicle.

Product Wooden toys - various Thomas & Friends™ Wooden Railway Toys

Brand RC2

Type / number of model 22 different types of wooden toys recalled: Red James Engine & Red James' # 5 Coal Tender ; Red Lights & Sounds James Engine & Red James' #5 Lights & Sounds Coal Tender ; James with Team Colors Engine & James with Team Colors #5 Coal Tender ; Red Skarloey Engine ; Brown & Yellow Old Slow Coach ; Red Hook & Ladder Truck & Red Water Tanker Truck ; Red Musical Caboose ; Red Sodor Line Caboose ; Red Coal Car labeled "2006 Day Out With Thomas" on the Side ; Red Baggage Car ; Red Holiday Caboose ; Red "Sodor Mail" Car ; Red Fire Brigade Truck ; Red Fire Brigade Train ; Deluxe Sodor Fire Station ; Red Coal Car ; Yellow Box Car ; Red Stop Sign ; Yellow Railroad Crossing Sign ; Yellow "Sodor Cargo Company" Cargo Piece ; Smelting Yard ; Ice Cream Factory.

Product description The recall involves wooden vehicles, buildings and other train set components for young children. The front of the packaging has the logo "Thomas & Friends Wooden Railway" on the upper left-hand corner. A manufacturing code may be located on the bottom of the product or inside the battery cover. Toys marked with codes containing "WJ" or "AZ" are not included in this recall. Production period: January 2005 to April 2007.

Risk type	Chemical
Risk description	The product poses a serious risk of poisoning because surface paints on these products contain an excessive level of migratable lead. Lead is toxic if ingested by young children and can cause adverse health effects. This product does not comply with the Toys Directive and the relevant European standard EN 71-1.

Product Electric planer 82 x 2 mm

Brand BRISTOOL ENGLAND

Type / number of model BT/PL822-902

Barcode 6928920930365

Product description The product has a plastic cover and the surface contacting the material to be treated is made of aluminium. The button setting the depth of planing also serves as a grip. The appliance neither has an automatically closing protecting shield nor a lowering device. The machine can be operated by pressing a button, where it can be locked with a black plastic insert on it. By pressing the button again the lock is released, and the planer will switch off if the button is released. Main parts of the device: mains plug with inscription "10/16A 250V FY-206" + marks of manufacturer + VDE; mains cable with inscription "TRIACE H05VV-F 0,75mm² X2C" + VDE + KEMA-KEUR "; one-circuit switch with inscription "RJCEA FA2-6/1B 6(6)/250V~ 12(12)/125V~ 5E4" + CQC. Technical specification: 230V~50Hz; 710W; 16000 r/min; width and depth of cutting: 82x2mm.

Risk type Electric shock

Fire
Injuries

Risk description

The product poses a risk of electric shock because: - after the thermal test, the electric strength of the insulation decreases; - the majority of the information related to electric safety is missing from the instructions for use, and of injuries because : - the product is not provided with any device protecting against the contact with the rotating part and protection against accidental operation; - the switch can be locked when the machine is operating; - the data plates with the essential information can be removed easily; - the instructions for use do not include the majority of the general instructions related with the safe use, and of fire because during the thermal test, the planer caught fire. The product does not comply with the Low Voltage Directive and the relevant European standard EN 60745.

Product Electric water heater

Brand HEJ

Type / number of model HEJ HJ 119

Product description Electric heater for boiling water. The following information is available on the package: "Voltage 220-240V. Frequency 60 Hz. Power 1000W."

Risk type Electric shock

Risk description The product poses a serious risk of electric shock because the cover of the electric heater does not ensure the protection against the water infiltration, causing a risk of electric shock. It should have an immersion coefficient of at least IPx7. In addition, it should be classified under Class I with respect to protection against electric shock, but it is classified under Class 0. This product does not comply with the Low Voltage Directive and the relevant European standard EN 60335.

Product 2-slice toaster

Brand TECHNIKA

Type / number of model TK - 306A. Bar code: 8013784774779. Lot identification: T-134-4

Product description The product has a white cover. The side walls were made of metal, while the endings were made of plastic. On one of the sides there is the lever for lowering the slices, the rotating timer button and STOP button. Main parts of the device: mains plug (STANDARD, TS-029, 10A, 250V, + marks of approval); mains cable (N/15382, H03VVH2-F 2x0.5mm² + marks of approval); control panel (GW08B 06/98). Technical specification: 20-240 V; 50-60 Hz; 700 W Class II (by appearance).

Risk type Electric shock
Fire

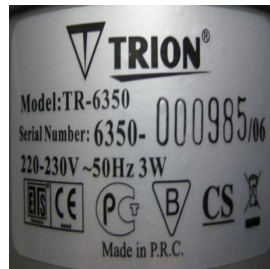

Risk description This product poses a serious risk of electric shock because: - the heating element is accessible; - the insulation is unfixed on the internal wiring; - there is no sufficient distance between the heating element and accessible metal parts; - the plug is of non-standardized type, and of fire since the cross section area of the mains cable is too small. This

product does not comply with the Low Voltage Directive and with the relevant European standard EN 60335.

Product Rotating TV antenna with remote control

Brand TRION

Type / number of model TR-6350; Bar code: 9 120020 491815

Product description The control unit of the rotating antenna has grey plastic cover. The rotating unit can be connected to it with an (approximately) 10 m coaxial cable. The UHF and VHF antenna consisting of aluminium elements is fixed to the rotating part. Main parts of the device: mains plug with inscription "6A; 250V"; mains cable with inscription "RVVB PVC INSULATED ELECTRIC WIRE 300/300V"; control unit panel with inscriptions "liaoxxinhua@21cn.com DYB-1 HS-913"; mains supply transformer without inscriptions; switch with inscription "LIDA KC 9988 250V 3A AC". Technical specifications: 220-230 V~; 50 Hz; 3 W; Class II (by appearance).

Risk type Electric shock
Fire

Risk description This product poses a serious risk of electric shock because: - the internal wiring is not fixed in front of the soldering; - the construction of the plug is non-standardized, and of fire due to the overheating of the transformer. This product does not

comply with the Low Voltage Directive and with the relevant European standard EN 60065.

Product Garden lamps - various dwarfs holding a lamp (portable luminaire)

Brand Z.U.H..

Type / number of model LZ1

Product description Portable luminaires of various sizes, which have metal and glass cover and can be hung with hanging hooks onto one hand of the garden dwarf of various forms and sizes designed especially for supporting the luminaires. The height of the dwarfs is approximately 0,45 and 0.75 m. Since this type of product is generally used in a garden, therefore the classification of the luminaires is portable garden luminaires. Main parts of the luminaires: E 14 lamp holder with inscriptions: "T/4 250 V 2A CE T210"; mains cable with inscriptions: "nkt cables H03VVH2-F 2x0.5mm2 BBJ HAR VDE CE"; mains plug with inscriptions: "acar SPZ-79 2,5/250~ B VDE" Technical specification: 230V; 50Hz; other parameters are not indicated. The light sources are of 15 and 40 W, E14 capped. Class II (by appearance).

Risk type Electric shock
Injuries

This product poses a serious risk of electric shock because: -

Risk description	the lamp holder and the nipple are not protected against loosening (they are not locked); -the size and design of the cord anchorage applied (round cross section area) is not in accordance with the flat mains cable; - the size of the cross section area is too small (0.5 mm ²); - the insulation material is PVC instead of rubber required for outdoor use, and a moderate risk of injury since the luminaires include sharp glass parts and the metal parts have sharp points. This product does not comply with the Low Voltage Directive and with the relevant European standard EN 60598.

Product	Magnets - Magnetix
Brand	MEGA brands; RoseArt
Type / number of model	Unknown
Product description	Various boxed versions containing plastic pieces that incorporate small magnets
Risk type	Injuries
Risk description	This toy poses a serious risk of injuries because small magnets can be detached from the rods and panels in the sets. If two or more magnets or a magnet and a metal object are swallowed, they can attract internally and cause perforations, twisting and/or blockage of the intestines, infection, blood poisoning (sepsis) and death. In addition, the packages do not bear a specific pre-printed magnet ingestion warning label (the warning is present but is on a sticker label attached to the box). This toy does not comply with the Toys Directive. 27 incidents in the United States and in Australia have been reported between November 2005 and March 2007. Not all but a number did require surgical intervention and a 22 month old child died in the US after ingestion of magnets.

Product Bicycles with Carbon Crankset

Brand CANNONDALE

EC-type approval/model 2007 and 2008 Cannondale Road and Mountain Bikes equipped with Cannondale System Integrated 2-Pieces Carbon Cranksets. Affected bicycle models: - 2007 Bikes: Synapse Carbon SL 1 Compact Drive; Ironman 1 SL Carbon Standard Drive; System 6 Team 1 Compact Drive and Standard Drive; System 6 Team 3 Compact Drive and Standard Drive; Cyclocross SL 1 Compact Drive; Taurine 1 SL; Rush Carbon 2. - 2007 Framesets & Cranksets: Synapse SL SL; System 6 Team SL; CAAD 9 Cyclocross SL; All Carbon SL Road Cranksets. - 2008 Bikes: System 6 Liquigas 3; Compact and Standard Drive.

Product description Cranksets are the gears at the front of the bicycle chain with pedals attached to the outer ends. The crankset spins on a bearing and axle assembly called a bottom bracket. The recalled cranksets are two-piece carbon crankset with an integrated aluminium bottom bracket.

Risk type Injuries

Risk description This product poses a serious risk of injuries because the aluminium bottom bracket spindles on some of these bikes was incorrectly heat treated. This manufacturing error causes

cracks that can lead to a complete crankset failure, posing a fall hazard to user, with a risk of serious injury or death.
