Product Plush toy - PUCCA

Brand PUCCA

Type / number of model PUU 61077-PUCCA, EAN 3281640157942

Product description Unknown

Risk type Choking

Risk description The product poses a serious risk of choking because the small suction cup of a toy attached to a band can be detached with a force of 24N. Suction cup, chain and the metal ring fit within the small parts cylinder. Children may put small parts into their mouth and choke. This product does not comply with the Toys Directive and the relevant European standard EN 71-1.

Product Sauna fragrance - Orange-Black Pepper sauna fragrance

Brand Dresdner Essenz

Barcode Batch No 01502

Product description Clear glass bottle with white plastic screw-top; contents 100 ml; packaged in a multicolour-printed paperboard box.

Risk type Health risk / other

Risk description The product poses a serious health risk because the bottle-top is not child-proof and the bottle can be opened easily by children. Opening the bottle releases a fruity fragrance which children are likely to find pleasant. It is foreseeable that children, especially infants, will be attracted by the smell and colour of the sauna fragrance and will drink it. The bottle's relatively wide opening (approximately 5 mm) means that at the very first attempt to drink the product a few millilitres of the harmful preparation may enter the child's mouth and be swallowed. Swallowing a very small amount of such low-viscosity liquids may cause severe chemical pneumonia in infants.

Product Impact drill

Brand REDLINE

Type / number of model RL/ID0955-910, Article No: Z1JE-KZ2-16B, Code: 1809049559109

Product description The product has a red plastic cover, while the drive gear house has a silver metal cover with a black rubber insert at the grip. The machine is supplied with a quick-chuck, thus the machine can be tightened with the hand. Main parts of the device: mains plug (FY-007; 16A; 250V; VDE); mains cable (H05VV-F; 2x0,75mm² YONKANG ZHIYING CABLE AND WIRE FACTORY; VDE); switch+speed regulator unit (FA2-6/1BEK; 6(6)A; 250V~; 5E4; TÜV) and motor without inscriptions. Technical specification: 230V~; 50Hz; 910W; 0-2800r/min; 13mm; Class II.

Risk type Fire

Risk description The product poses a serious risk of fire because the internal wiring is unfixed therefore short-circuits may occur and the machine caught fire during the thermal test. The product does not comply with the Machinery Directive and with the relevant European standard EN 60745.

Alert number 0682/07

Notifying country	Bulgaria
Product category	Electrical appliances and equipment
Type	Consumer
Product	Table lamp
Name	Table lamp with flexible arm and clip
Brand	ACIKO
Type / number of model	108
Product description	The luminary consists of a body of metal and plastic. The basement of the luminary is a plastic clip with build-in potentiometer-switch. The flexible plastic pipe fixes the coloured metal lampshade. Main parts of the luminary: ceramic lamp holder 27 without inscription, supplying cable with inscription: excessive stand power connect flexible cable 300/300V PVC, plug with inscription 2,5- 250V. Technical characteristics: 220V, 60W, class II, socket 27.
Risk type	Electric shock
Risk description	The product poses a serious risk of electric shock because: - the insulating cover of the cable can be damaged in case of passing through sharp cutting borders, - possible damage of the supplied cable due to lack of anchorage protecting from mechanical tension in case of cable's extension and torsion, - possible access to the live parts due to the non-securely fixed

insulated bushings, which could be unwound. The product does not comply with the Low Voltage Directive and the relevant European standard EN-605908.

Product category Motor vehicles

Type Consumer

Product Passenger car - steering system in Smart Fortwo

Brand Daimler Chrysler AG

EC-type approval/model Smart Fortwo

Product description The recall concerns Smart Fortwo vehicles, built between May 2007 and June 2007.

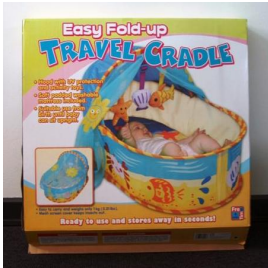

Risk type Injuries

Risk description The product poses a serious risk of injuries because during the assembly process by the supplier of the mechanical steering (Delphi) it could be that a circlip (Seeger retaining ring) is not correctly fitted in all cases, which means that a perfect fit of this circlip in the groove provided is not always guaranteed. In the worst case this could result in migration of the ball bearing including the steering shaft during steering. This would mean loss of the connection between the steering pinion and the steering rack. The front wheels are then no longer steerable.

Product category	Recreational crafts
Type	Consumer
Product	Fuel level sensor in a fixed fuel tank for recreational crafts
Brand	Nuova Rade / San Giorgio S.E.I.N.
Type / number of model	"Sogliola" nr. 50218 (in 2006 catalogue) Volume 80 litres, net volume 72 litres fitted with a fuel level sensor and gasket provided by the manufacturer San Giorgio S.E.I.N. Fuel tanks in Buster X craft manufactured between November 2006 and June 2007. Possibly other craft using the same fuel tank and/or fuel level sensor and gasket.
Product description	Plastic fuel tank for recreational craft with a sensor for fuel level. A fault has been detected in Buster X craft.
Risk type	Fire Injuries
Risk description	The product poses a serious risk of explosion, fire and skin irritation because the fuel level sensor's gasket loses its properties and becomes fragile when in prolonged contact with petrol. This may lead to leakage of fuel from the tank with consequent leakage of petrol into the boat. The product does not comply with the Recreational Craft Directive.

Product Angle grinder

Brand Unknown

Type / number of model ols Product: Angle grinder Brand: MANS FRIEND Type/number of model: MF 125-110; Bar code: 9 120 022 491 561

Product description The samples are identical with each other considering their construction and the used parts, but the packaging is different. The housing of the grinder also serves as a grip. It is made of black plastic; there is an orange plastic insert on it. The second grip is also plastic and can be screwed into one of the holes on the sides of the metal crank house. The machine can be operated by pushing forward the switch button, where it is locked. The lock is released when pressing it from the side, and thus the button gets automatically into switch-off position. The protecting shield is made of iron plate and can be fixed onto the crank house with a screw. Main parts of the device: mains plug (16A/250V FV-007+mark of manufacturer+VDE); mains cable (H05VV-F; 2x0,75mm² YONKANG ZHIYING CABLE AND WIRE FACTORY; VDE); bipolar switch (ZRHL DQ FD2-5/2F 125V~60Hz 250V~60Hz 16(16)a 5E4); attached cutting disc "MANS FRIEND max.80m/s 125X22,2mm Upm/rpm/tpm max. 12200" + mark of direction of rotation. Technical specification: 230 V; 50 Hz; 750 W; Class II; 11000 RPM; diameter: 125 mm.

Risk type	Electric shock Injuries
Risk description	The product poses a serious risk of electric shock because: - live parts are accessible, - the ventilation holes got damaged during the required mechanical tests, therefore the live parts became accessible, - the internal wiring is not fixed therefore they can get damaged due to contacting moving parts, and of injuries since the majority of the safety instructions and general safety rules are missing from the instructions for use. The product does not comply with the Low Voltage Directive and the relevant European standard EN 50144.

Product Desk lamp with E12 capped candle incandescent lamp

Brand Unknown

Type / number of model No B-17 F

Product description The cover of the luminary is made of glass plates of various sizes placed into wooden frames. The glass is decorated with different motifs. The frames are fixed with screws on the bottom and upper part. The bottom profile part is fitted with the E12 lampholder to which the cord switch and the mains cable is connected. Main parts of the luminary: mains cable (SANTORY; 300V; 70°C; PVC; VFF; 2x0.6 SQ.MM.; TABLE; 10; TIS; 11-2531; A.R.C.); mains plug (KTR-1991); cord switch (SANTORY; SP-109; 6A; 250V); unipolar switch built into the cord switch (LG; 6A; 250V; TÜV; CE); E12 lampholder (SANTORY; LH-12A; 250V; 7W). Technical specification: there is no data plate, Class II by appearance.

Risk type Electric shock

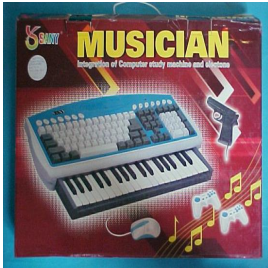

Risk description The product poses a serious risk of electric shock because: - live parts of the lamp-head are accessible; - the plug is of non-standardized type; - there is no cord anchorage protecting against the pulling and twisting force, and it can contact with

sharp edges, thus the cable may get damaged. The product does not comply with the Low Voltage Directive and the relevant European standards EN 60598 and EN 60238.

Product Video game with a supply unit – Super study game piano - Musician

Brand SANY

Type / number of model 03323793 X

Product description The basic unit of the video game provided with plastic cover consists of a computer keyboard (105-buttons) integrated with piano keyboard. For the power supply of the unit there are 4 series connected AA-R6 batteries and an adaptor operating with 10 V d.c. output voltage. The basic unit contains a port for memory cards with the game software, 2 COM ports for external control devices (mouse, pistol as hit sensors, push-button game control), an RCA for sound and video output. The game can be started with a press button. Main electrical parts of the video game: interface panel with inscription: KX-6561(2); control panel with inscription: KXL-999-1; mains supply adaptor "TV-GAME AC ADAPTOR Z AC 220V 50/60 Hz DC 10V 500 mA POWER SUPPLY CAUTION Indoor use only Technical specification: AC 220V; 50/60 Hz DC 10V 500 mA; 4x1,5V R6". Class II (by appearance).

Risk type Burns
Electric shock
Injuries

Risk description The product poses a serious risk of electric shock because: - the live parts of the primary circuit in the transformer are accessible; - the insulation between the primary and secondary circuit is less than required; - the size of the plug is non-compliant, and a moderate risk of burns because the spring conductor of the battery holder overheats (measured value: >500 °C) if short-circuited, and a moderate risk of injuries because there is no adequate distance between the moving parts of the game (piano keyboard/cover). This product does not comply with the Toys Directive and the relevant European standards EN 71-1 and EN 61558.
