Notifying country Italy

Product category Laser pointers

Type Consumer

Product Laser pointers - "Multifunctional seven-coloured light LED and laser pointer"

Brand Unknown

Type / number of model Code 2008101 - Class III

Product description Packaging has aluminium colour. Laser pointer has blue and green LED light and five interchangeable plastic points.

Risk type Damage to sight

Risk description Label on the product indicates that it is a laser of class 3. These products, therefore, are potentially dangerous if the beam strikes an unprotected eye directly or even when reflected by another surface (watches, rings, pens, etc.). Selling of lasers of class 3 is prohibited in Italy except for specific professional uses; in such cases the supplier must clearly indicate the purpose of the product and the instructions for its proper use.

Product Luxenia Mosquito Killer

Brand Luxenia

Type / number of model Model No 743075

Product description The Mosquito Killer is rectangular in shape and has a body mostly made of silver coloured metal. A black grid on the front and another on the back side of the appliance are placed in front of the tubes and the electrified bars intended to kill the insects. Underneath the tubes there fits a removable tray used to hold dead insects. On the front of the appliance there is a label in the middle of which there is a drawing of a fly with a red arrow. To the left of the drawing the word “Kill” is printed while on the right the word “Pest” is used. A CE mark is also printed on the right hand side of this label. There is a switch adjacent to this label. On the top panel the manufacturer has attached a white label with warnings / instructions. Also on the top there are two hooks which are intended to hold the supplied chain so that the appliance may be suspended. Th insect killer is supplied with a two wire cord and a two pin plug which also has CE marking. The approximate size of the product is 275 mm x 105 mm x 260 mm.

Electric shock

Risk type

Risk description

This product poses a risk of electric shock because: - it is considered as an appliance of class I and it does not contain required earthing wire; - anchorage does not comply with the standard; - it is not labelled correctly; the following information is missing: the rated voltage or rated voltage range in volts, the frequency or nature of supply, the rated power input in watts or rated current in amperes, the symbol 5036 of IEC 60417-1 or the wording (or similar) "Danger: High Voltage". This product does not comply with the Low Voltage Directive and the relevant European standards.

Product Blow-pipe - PARTY - Fukacka

Brand TOYS

Type / number of model 118618, EAN: 8590331186181

Product description The blow-pipe contains a pipe made from soft PVC with length of 10,5cm and diameter of 1 cm. On the bottom, there is a removable mouth-piece with diameter of 1,5 cm and length of 3,9 cm. The top is made as a removable small head with a neck and horns. The latter are equipped with inflatable colour cellophane strip bags ended by foil tufts. The length of the toy is 20 cm, with the inflated cellophane strip bags about 30 cm. After inflation, the toy produces a squeaking sound. The toy is packed in a transparent plastic bag closed with a colour carton edging. On the latter, there is a stick-on label with warning -not suitable for children up to 3 years due to the presence of small parts-, and other marking.

Risk type Choking

Risk description This toy poses a serious risk of choking because the removable mouth-piece of the blow-pipe fully fit into the small part cylinder, posing choking hazard for children during a normal use. This toy does not comply with the Toys Directive

and the relevant European standard EN 71-1.

Product Portable lamp

Brand EM&EM

Type / number of model A05317 230 V, 50 Hz, E 14, II class of protection against electric shock. The colour of the lamp is brown. It is offered in a cardboard box.

Product description Unknown

Risk type Burns
Electric shock

Risk description The product poses a serious risk of electric shock and burns because in the fitting spliced flexible wire conductors have been fully tinned and installed in terminals that do not ensure an elastic clamp, which may be a reason of falling out of the conductor from the terminal, and thus cause the decrease of the isolating clearances or a shock, as well as in case of loosening of the wire-terminal contact it could cause sparking and overheating of the contact. Moreover the product and its packing contained contradictory information regarding the maximum power of a bulb - 40 W and 25 W respectively. This product does not comply with the Low Voltage Directive and with the relevant European standard EN 60598.

Type / number of model	119599
Product description	The set Little Musician comprises a saxophone of a green colour with red small parts, an orange whistle and a violet star. The red mouth-piece of the saxophone is removable. The set is on the cardboard bolstering covered with a plastic. According to a pictogram, the toy is designated for children aged 0-3 years.
Risk type	Choking
Risk description	This toy poses a serious risk of choking because the removable mouth-piece of the saxophone fits entirely into the small parts cylinder. It poses a serious risk for a child due to a possibility of an unwilling aspiration during a normal use. The toy does not comply with the Toys Directive and the relevant European standard EN 71-1.

Product	Glove puppet 'Devil'
Brand	Simba
Type / number of model	Article No: 4585309, EAN 4006592453091
Product description	One glove puppet in the form of a devil, plastic (coloured) head, rest made of black fabric with red fabric appliqué. The devil's cloak has two red triangles on the front. The packaging is predominantly red with a blue back side. The bottom of the packaging bears the packaging number 66661102 next to a sentence "Made in China".
Risk type	Chemical
Risk description	This product poses a chemical risk because azodyes were used in the manufacture process (372 mg/kg 4-aminoazobenzene (CAS No: 60-09-3) was found in the black fabric of the toy). Breakdown of one or more of the azo-groups can lead to the formation of one of the carcinogenic amines.
