

Alert number 0887/07

Notifying country	Bulgaria
Product category	Lighting equipment
Type	Consumer
Product	Portable luminary for children
Brand	Unknown
Type / number of model	Unknown
Product description	Portable luminary for children with technical data: 230V, 50Hz, 15W, consisting of: body in the shape of crossing cone made from textile; metal base with cylindrical form; soft body doll, with blue eyes and braid blond hair with red ribbon, sit on the base of the luminary, with spread hands, dressed in a textile cami-knicks, put on bootees; lamp holder #27, switch with technical data: 250V, 2#; 170 #m long double-core supplying cable; non-rewirable plug.
Risk type	Electric shock
Risk description	This product poses a serious risk of electric shock because : - live parts are accessible, - there is no transformer giving a SELV (Safety Extra Low Voltage), - the insulation of the outer and inner supplying wires can be damaged when passing through sharp cutting edges, - the luminaire has no adequate mechanical strength, - there are no instructions for use. This product does not comply with the Low Voltage Directive and the relevant European standard EN 605908.

Product	Portable luminary for children
Brand	Ozdpsan
Type / number of model	No 6157
Product description	<p>1. Construction: body – glass part in a shape of a hemisphere with a diameter 23 cm, representing the upper part of a mushroom, painted on it four red mushrooms with white points and a black foot. In four places are painted tree points with different diameters; metal base, representing a red cylinder, with diameter 13 #m and height 2,5 cm. Through a metal tube (the foot of the mushroom – luminary) passes a supplying cable connecting the lamp holder under the hemisphere; 2. Electrical characteristics: lamp holder #14 of filament lamp with power not exceeding 40W; a double-core black flat supplying cable of 130 #m length, switch - black 1,4 #, 250 V; plug– black with technical data 250V, 2,5#.</p>
Risk type	Electric shock
Risk description	<p>This product poses a serious risk of electric shock because : - protection against contact to live parts is not sufficient. The protection of this type of luminaire is generally ensured by the use of power transformer/converter of safety voltage not</p>

exceeding 24V, - there is no suitable protection of the supplying cable against mechanical damage to the insulation, - there is no mark of the protection class. The luminaire's insulation does not conform to the requirements of protection class II (double or strengthened insulation), - there are no instructions for assembly and use. In addition, there are small removable parts. This product does not comply with the Low Voltage Directive and the relevant European standard EN 605908.

Product Portable luminary for children

Brand KUMRAL

Type / number of model Unknown

Product description 1. Construction: body representing crossing cone with base diameters 15 and 10 cm, and height 18 cm, made from light beige impregnated textile with painted rabbits and flowers; both bases of the body end with red textile drapery. The base is made of white coloured cylindrical metal with diameter 14 cm and height 2 cm. Through the white metal tube, coming out of the base centre, passes the supplying electrical cable. On the base of the luminary is placed a white downy toy - a sitting yellow coloured bear, one of its ear is red coloured in its inner side, the other is blue; its leg feet are in the same colours; bear's height is 10 cm, black eyes, pink ribbon, golden muzzle; 2. Electrical characteristics: lamp holder #27 of filament lamp with power 60W; 175 #m long double-core, white, flat supplying cable with non-rewirable flat plug; switch - trade-mark KUMRAL 2,5 #, 250 V; 250V, 2,5#.

Risk type Electric shock

Risk description This product poses a serious risk of electric shock because : -

protection against contact to live parts is not sufficient. The protection of this type of luminaire is generally ensured by the use of power transformer/converter of safety voltage not exceeding 24V, - there is no suitable protection of the supplying cable against mechanical damage to the insulation, - there is no mark of the protection class. The luminaire's insulation does not conform to the requirements of protection class II (double or strengthened insulation), - there are no instructions for assembly and use. This product does not comply with the Low Voltage Directive and the relevant European standard EN 605908.

Product category	Motor vehicles
Type	Consumer
Product	AT manual control lever bolt in Mitsubishi SUV
Brand	Mitsubishi
EC-type approval/model	Pajero/Montero (Shogun) AT (V87/V88/V97/V98)
Product description	The recall concerns vehicles with production dates from 21 November 2006 to 22 March 2007. The VIN/chassis numbers of the affected vehicles are: JMBMYV87W7J000140 - JMBMYV87W7J000164 JMAMYV88W7J000170 - JMAMYV88W7J000431 JMBMYV88W7J000380 - JMBMYV88W7J001430 JMBLYV97W7J001392 - JMBLYV97W7J002678 JMBLYV97W8J000138 - JMBLYV97W8J000147 JMALYV98W7J000182 - JMALYV98W7J001296 JMBLYV98W7J001032 - JMBLYV98W7J003377.
Risk type	Injuries
Risk description	There is a possibility that the bolt welded to the manual control lever (lower) at the AT side may be cracked, which may result in loosening of the adjust nut and moving of the cable. This can then lead to a different positioning of the shift lever itself from actual A/T shift position. (For instance: Shift lever position is “P”, but actually A/T shift position is “R”). In this case, customer tries to start the engine, but engine cannot start because of “R” position .In a worst-case scenario, the bolt might get broken and then, the control cable might be disconnected from the fixing location, resulting in no operation of A/T shift and inability for driving.

Product	Soother holder
Brand	SARO
Type / number of model	Ref: 53061, 53062 and 53063; bar code: 8424568045570
Product description	Multicoloured pacifier chain made of wood. The fastener has a metal clip with a mouse's head stuck on it. The chain is made up of small, brightly-coloured balls of wood. The packaging is a sheet of blue cardboard on which "pacifier chain" is written in a number of languages. The warnings and instructions for use are given on the back.
Risk type	Suffocation
Risk description	This product poses a risk of suffocation because: - its length when measured under a tensile force of 25 N exceeds the maximum limit laid down by the standard, - the clothing fastener has no ventilation holes, - the clothing fastener passes through gauges A and B, - the strap of the pacifier fastener broke during the impact resistance test. This product does not comply with the relevant European standard EN 12586. One incident has been reported.

Type	Consumer
Product	Magnetic toys
Brand	MATTEL
Type / number of model	Various Polly Pocket, Doggie Day Care and Batman toys and an accessory part of Barbie & Tanner toy.
Product description	Plastic toys inside cardboard boxall
Risk type	Injuries
Risk description	These toys pose a risk of injuries because they may release small, powerful magnets that can then be swallowed or aspirated by young children or placed by a child in their nose or ears. When more than one magnet is swallowed, the magnets can attract each other and cause intestinal perforation, infection or blockage, which can be fatal. Aspiration to the lungs requires immediate surgery. Magnets in nose or ears can cause swelling and be difficult to remove.

Product	Set for swimming - "Maisy mermaid snorkel set"
Brand	Early Learning Centre
Type / number of model	Product No: 115337 0806; bar code: 5 050048 195881
Product description	Set intended for children at the age of 3 to 8 years old. Made of plastic in pink nuances. Consist of 3 parts, diving glasses, flippers and snorkel.
Risk type	Chemical
Risk description	The product poses a chemical risk to children because the plastic in the diving glasses contains 4.2% by weight of Di-"isononyl"-phthalat (DINP). The use of DINP in toys is restricted under the Chemicals Restrictions Directive 76/769/EEC.

Product	Remote-controlled socket
Brand	Unitec
Type / number of model	Remote-controlled socket set 3+1, 5-channel version, Art. No 450801, model EIM-814, EAN 4008153508011
Product description	Set of three remote-controlled sockets and one remote-control device
Risk type	Electric shock Fire
Risk description	The notified product poses a risk of electric shock because all six tested remote-controlled sockets had a too wide gap between the earth contacts (between 29.3 mm and 31.5 mm). This means that a safe connection between appliances plugged in and the earth wire is not ensured. The notified product poses a risk of fire because in the load test the socket's printed-circuit board caught fire, and the temperature of the socket contacts rose by more than 100 K. This product does not comply with the Low Voltage Directive and the R&TTE Directive and the relevant European standards.

Product	5 M 1500W extension lead on reel
Brand	LEIVA ELECTRICIDAD
Type / number of model	Ref 11901
Product description	5 m, 1500W extension lead, which can be wound up on a reel. It is packed in a transparent plastic bag with a round label carrying the details of the firm LEIVA ELECTRICIDAD, CE marking and reference 11901.
Risk type	Electric shock Fire
Risk description	This product poses a risk of fire and electric shock because: - the reel is not fitted with threaded terminals for external copper conductors, - the reel is not fitted with a flexible cable in accordance with HD 21 0 HD 22 and is lighter than a flexible PVC-coated cable, - the minimum dimensions of the cable are 0.40 mm ² , less than 0.75 mm ² , - the ends of the conductors are consolidated using soft solder, - the reel has no cable fastening to ensure that the conductors do not suffer tension or twisting, - the reel is not designed to protect the flexible cable, - the reel does not permit for easy connection of the conductors to the terminals, - as the conductors are not fixed, the creepage and clearance distances may be reduced,

- the power intake plug does not comply with Standard UNE 20-315, - the maximum permitted heating values are exceeded (by more than 25 K), - it did not pass the ball pressure test. This product does not comply with the Low Voltage Directive and the relevant European standard EN 61242.
