Product **Motorcycle - Water pump impeller in DUCATI motorcycles**

Brand **DUCATI**

EC-type approval/model **DUCATI motorcycles, models Monster S4 RS and ST3**

Product description **The recall affects DUCATI models Monster S4 RS and ST3 motorcycles within frame no. range: - ST3 from frame serial number ZDMS302AA7B006600 to ZDMS302AA7B006640 (Europe model)- Monster S4 R and RS from frame serial number ZDM1RB5T77B106330 to ZDM1RB5TX7B106516 (USA version), from ZDMM417AA7B106006 to ZDMM417AA7B106675 (Europe version) and from ZDMM418AA7B106009 to ZDMM418AA7B106021 (France version).**

Risk type **Injuries**

Risk description **This product poses a risk of injuries because the water pump impeller does not turn as a new impeller, with a wrong shaft - which is shorter than the nominal one, and does not engage on the timing lay shaft - was installed. Due to this reason, the cooling system does not work properly (Coolant temperature easily exceeds the max. allowed value of > 120° C, even if electric fans correctly switch on), with a consequent damage of some engine parts (piston seizure, for example). That may allow the engine to stall, causing a crash.**

Product **Scooter, model "Speed Limit Girl"**

Brand **GO SPORT**

Type / number of model **Reference 81540, bar code: 2 060499 395801**

Product description **Folding scooter for children. The GO SPORT "Speed Limit" scooter also exists in a boy's version with the same reference number. As the only difference compared with the girl's version seems to be the colour of the handlebar grips, it is probably affected by the same problems.**

Risk type **Injuries**

Risk description **This product poses a serious risk of injuries to the user given the risk of trapping.**

Country of origin **People's Republic of China**

Measures taken by economic operators **Other : Voluntary withdrawal from the market and recall from consumers.

Product category	<b>Recreational crafts</b>
Type	<b>Consumer</b>
Product	<b>Self-inflating life rafts</b>
Brand	<b>BFA MARINE</b>
Type / number of model	<b>Models: BFA, Baltic, Atlantic, Pacific and XM/BFA OFFSHORE</b>
Product description	<b>Self-inflating life rafts manufactured between 1997 and 2002 (serial numbers 10001 - 50180) and between 2002 and April 2007 (serial numbers starting with the prefix XDC).</b>
Risk type	<b>Drowning</b>
Risk description	<b>The product poses a serious risk of drowning because the life raft may not inflate when used, owing to a fault: - in the two valves on each of the two compartments, - on the Y-shaped plastic inflating connection. It seemed that the valve fault originated from assembly in a factory using lubricants which allowed tightening beyond the force recommended by the supplier. When over tightened, the overpressure valves can crack, or even break, after a period of time which is difficult to estimate, but which may apparently be shortened as a function of storage temperature. Concerning the Y-connection, a Y-shaped plastic inflation connection is fitted to a small number of life rafts manufactured. The presence of traces of lubricant detected by analysis suggests that the cause of the faults on the Y-connection is the same as in the case of the valves.</b>
