Product Ornamental garden torches

Brand Unknown

Type / number of model Bamboo ornamental garden torches in various sizes: 60 cm torch, code 3109000; 90 cm torch, code 3109001; 120 cm torch, code 3109002; 180 cm torch, code 3109003; 40 cm torch, code 3109004; set of 120 cm torches with wicks, code 3109005.

Product description The ornamental torches are composed of a bamboo frame, an aluminium vessel with a screw cap, a wick and a washer. The washer measures 3 cm in diameter and is found under the screw cap, between the wick and the aluminium cap. It is made of friable chrysotile asbestos, is easily removable and can be broken up using one's fingers. The only difference between the items is their size.

Risk type Chemical

Risk description This product poses a carcinogenic risk due to release of friable chrysotil-asbestos fibres (carcinogen by inhalation - class 1 IARC) if the asbestos washer is handled or dispersed in the environment. This product does not comply with the Chemicals Restrictions Directive 76/769/EEC. Voluntary withdrawal from the market by the distributor.

Product	Bath pearls - Follement chocolat bulles pour le bain - Sephora bath pearls
Brand	Sephora
Type / number of model	Artic 133577 EAN 3378872015017; NOEL 05, BAIN SACHET PERLES CHOCOLAT
Product description	The product is a series of 1.5 cm diameter dark brown balls that resemble chocolate. The product gives off a chocolate-like fragrance as a result of the ingredient theobroma cocoa contained therein.
Risk type	Choking
Risk description	This product poses a serious risk of choking because it may mislead consumers since, given its shape, colour, appearance and size, consumers and particularly children may confuse them for food. This product does not comply with the Directive 87/357/EEC concerning products which, appearing to be other than they are, endanger the health or safety of consumers.

Product category Toys

Type Consumer

Product Rattle "Monkeys"

Brand FUNNY TOYS

Type / number of model YMO38

Product description Rattle is made of white elastic strap on which are stringed monkey figures and plastic details in bullet shape. On the end of wire are bind plastic rings in deep violet colour. Monkey figures and rings are made of plastic in green, yellow, orange, and light violet colours. In monkey figures are inserted small plastic balls, which make sound when the rope is moved. The toy is packed in colourful cardboard box with transparent loose and it is fixed at the box base with insulated wire.

Risk type Choking
Injuries

Risk description The toy poses a risk of: - choking to children because it is easy to unbind strap node and small details, which fit into the small part cylinder, become accessible; - injuries because the child can scratch skin against abrasive filing margins of toy details. This product does not comply with the Toys Directive and the relevant European standard EN 71-1.

Product	Motorcycle - Idle Speed Control (ISC) Valve on SUZUKI Motorcycle
Brand	SUZUKI
EC-type approval/model	GSXR 1000 K7
Product description	The recall concerns SUZUKI GSXR 1000 K7 motorcycles, with VIN range from JS1CL111100101910 to JS1CL111100112976.
Risk type	Injuries
Risk description	This product poses a risk of injuries because the improper shape of the internal mechanism of ISC valve can cause the valve operation failure that results in staying the valve in the open position and raising engine idle speed (high as approx. 5000 rpm, when engine is started). This could result to an abrupt and sharp starting of the bike, which could cause a possible accident, especially in case of an inexperienced rider.
Country of origin	Japan

Product category	Toys
Type	Consumer
Product	Plastic toy – Display Mini Worker
Brand	Unknown
Type / number of model	EAN 800079606639
Product description	The toy is a colourful (red-blue-green-orange) plastic locomotive. Size approximately 20 x 11 cm.
Risk type	Choking
Risk description	The toy poses a risk of choking because it contains a detachable small part, which children may put into their mouth and choke. The piece detached from the cylindrical joint that connects the front buffer to the frame of the locomotive. The detached part fits in the small parts cylinder. This product does not comply with the Toys Directive and the relevant European standard EN 71-1.
Country of origin	Italy
Measures taken by economic operators	Other : Voluntary recall from consumers by importer Other

Product category	Electrical appliances and equipment
Type	Consumer
Product	AC battery charger - Radio-controlled toy car with remote control and AC battery charger
Brand	MING HONG
Type / number of model	MH-787-039 (type version: MH-787-038)
Product description	The package of the product contains a toy car (scale: 1:10, number plate: MH-787-039 or MH-787-038) operated by batteries with a frequency of 27 MHz, a battery charger FENGHUI ELECTRONIC (Model No FH-2210572U AC 220V 50 Hz; DC 9,6V; 250 mA Class II), a remote control "RADIO CONTROL SUPER POWERED 27 MHz", 1 battery-AA 700mAh 9,6V Ni-Cd, and a dry battery of 9V 6LR61. L: 45 cm X W:20 cm X H:12 cm. Indication on the packaging: "PACEMAKER".
Risk type	Burns Electric shock
Risk description	The product poses a risk of electric shock because: - the plug of the battery charger is non-standardized, therefore the live pins are accessible when connecting to the power supply, - the age symbol (8 years), certain safety instructions of the battery charger and warnings are missing; and a risk of burns because the cover of the battery charger significantly overheats during abnormal use. The product does not comply

with the Low Voltage Directive and the relevant European standards.

Product	Mini-motorbike
Brand	Mini-crossbike Shengqi, sold as GlansPower 50
EC-type approval/model	MT-DB01
Product description	Mini-motorbike for children, 49 cc
Risk type	Injuries
Risk description	The product poses a risk of injuries because: - the maximum speed of the machine is high for the little children so the consequences can be very serious if the control is lost. There is no speed limiter in the machine; - welded seam in the base of the foot peg fixing seems to be a potential risk of failure during driving; - the inadequate guarded drive chain causes potential risk of compression for the driver; - the unguarded exhaust pipe poses a significant threat of burn to the user even after driving session for example when closing the fuel valve. In addition the product is without relevant manuals, markings and declaration of conformity. The product does not comply with the Machinery Directive.

Brand Lexxa and Roco Tools

Type / number of model - Lexxa: EAN 6 420617 642341, - Roco Tools: EAN 6 420617 641931

Product description Lexxa: grey and black product with red switch on top. Roco Tools: black product with red switch on top.

Risk type Electric shock

Risk description The product poses a risk of electric shock because the insulation of the mains cord does not withstand frost. At the bending test when rotating the complete cable around a mandrel with diameter 32 mm at 35±2 °C temperature, it shows cracks both at the sheath and at the insulation such that the wires of the conductors are accessible. The cable must withstand the bending test without showing any cracks. This product does not comply with the Low Voltage Directive and the relevant standards.

Product Electric planer 82x2 mm

Brand MAN'S FRIENDS

Type / number of model MF/PL822-903

Barcode 1316128229032

Product description The product has a plastic cover and the surface contacting the material to be treated is made of aluminium. The button setting the depth of planing also serves as a grip. The appliance neither has an automatically closing protecting shield nor a lowering device. The machine can be operated by pressing a button, where it can be locked. By pressing the button again the lock is released, and the planer will switch off if the button is released. Main parts of the device: mains plug with inscription "10/16A 250V FY-007" + VDE; mains cable with inscription "H05VV-F 2X0,75mm²" + VDE ; one-circuit switch with inscription "6(4) 250V~5E4 C300307A" + TÜV. Technical specification: 230V~50Hz; 710W; 16000 r/min; width and depth of cutting: 82x2mm, Class II.

Risk type Electric shock
Fire
Injuries

Risk description The product poses a risk of : - electric shock since after the thermal test the electric strength of the insulation decreases, and the majority of the information related to electric safety is missing from the instructions for use; - fire because during the thermal test the planer caught fire; - injuries because the product is not protected against unintentional operating, the switch can be locked in switched-on position and the instructions for use do not include the majority of the general and several specific instructions related with the safe use. This product does not comply with the Machinery Directive and with the relevant European standard EN 60745.

Product category	Toys
Type	Consumer
Product	Wooden toy - clip on wooden toy
Brand	HESS SPIELZUEG
Type / number of model	Batch Code 13 293
Product description	Clip on wooden toy with a blue ring, cat and cheese shapes attached using a red cord.
Risk type	Choking
Risk description	The products poses a serious risk of choking because the yellow wooden blocks (in the shape of a cheese) can be removed by a tensile force of 90 Newton by pulling off the knotted cord. The removed component fits entirely into the small parts test cylinder. This toy does not comply with the Toys Directive and the relevant European standard EN 71-1.

Notifying country	Finland
Product category	Machinery
Type	Consumer
Product	Wedge splitter - Agricultural and forestry machinery Log splitter
Brand	Pilkemaster
Type / number of model	Machines made between years 2000-2006.
Product description	Combined wedge splitter and cut-off machine
Risk type	Injuries
Risk description	This product poses a risk of injuries because there is danger of contact with moving parts of the machine in the splitting zone. The splitting zone was not guarded by using of an interlocking guard with guard locking or by using two-hand control device. There was no guarding of splitting zone. Cutting is made with a chainsaw. The chainsaw is operated with a hold-to-run control function. When the operating handle is released, the chainsaw returns to the uppermost position and the chain is stopped. During the cutting operation the short guard in the feed opening does not give adequate protection. The guarding of machine does not protect bystanders or other persons working with machine. One reported accident in Finland: two persons were using the machine. One person was using the machine and the other

person reached to the splitting zone with his hands. The fingers of the other person were crushed between the log and the splitting wedge. This product does not comply with the Machinery Directive and the relevant European standard EN 609-1.

Product Mini motorbikes - "Moped 49cc Crossimopo"

Brand Dirt Bike in English manual: Rolson

EC-type approval/model MT-DB03

Product description Mini-motorbike 49 cc

Risk type Injuries

Risk description This product poses a risk of injuries because : - the brake disc is bending notably when using the rear brake. The bending is stressing the thin disc that will probably lock up the rear wheel if failure is happening; - the maximum speed of the machine is high for the little children so the consequences can be very serious if the control is lost. There is no speed limiter in the machine; - the inadequate guarded drive chain causes potential risk of compression for the driver. Especially the rear sprocket's lower front side should have a chain guard which would prevent the user to get his leg between the chain and sprocket; - the unguarded exhaust pipe poses a significant threat of burn to the user even after driving session for example when closing the fuel valve; - the Finnish and English manual followed the machine but Swedish manual is missing; - markings of the machine are also insufficient. This product

does not comply with the Machinery Directive.
