Cordless hammer drills/screwdrivers

Brand

DeWALT

Type / number of model

Dewalt XRP IV 12V-14.4V. The hammer drills/screwdrivers were manufactured between 19 June 2006 and 12 November 2007. Date codes 2006 26 to 2007 45. The hammer drills/screwdrivers affected were sold in kits. The affected drills are model numbers DC935, DC940 and DC945. The date codes of the kits are as indicated above. The model number of the drill/driver can be found on the face of the nameplate, which is located on the right side of the drill/driver. The date code on the drill/drivers can be found on the underside of the foot of the unit where the battery is inserted (first 6 digits). For unpacked products, both the kit catalogue numbers and the date codes can be found on the bottom left underside of the cardboard sleeve. The date codes are the same as set out above, and the kit catalogue numbers begin either DC935, DC940 or DC945.

Product description

The products are cordless hammer drills/screwdrivers.

Risk type

Fire

Risk description

This product poses a risk of fire because the switch on the drills may overheat. There have been a few reports of incidents of switches overheating, but there have been no reports of injuries as a result of such overheating.

Product category	Recreational crafts
Type	Consumer
Product	Inflatable raft - Hydro Force Marine Pro Raft Set
Brand	Bestway
Type / number of model	Bestway 6501027 (or 65010).
Product description	An inflatable PVC raft with oars and a wooden backboard. L: 2.7m; W: 1.42m.
Risk type	Drowning
Risk description	The product poses a risk of drowning because, even if the boat is inflated correctly, due to a material defect the both of the side air chambers can be ripped and break at the same time causing a "boom"-sound. The raft is being sold together with a wooden board for motor attachment although it is classified as a "type 1" raft which can only be operated manually, with oars (EN ISO 6185-1). Many customers may install an electric outboard or a petrol engine in their raft as the instructions on motor assembly are not very clear, causing an explosion hazard. One accident reported: a raft exploded while in water overnight. The raft has two separate air chambers on the side tubes, which both had deflated due to a material defect. The product does not comply with the Recreational Craft Directive 2003/44/EC.
Country of origin	People's Republic of China

Notifying country	Germany
Product category	Electrical appliances and equipment
Type	Consumer
Product	Mains adaptor
Brand	Neuling
Type / number of model	SB 811; serial n°08381.
Product description	Adaptor for connecting electrical appliances with American plugs to German (European) mains outlets.
Risk type	Electric shock
Risk description	The product poses a risk of electric shock because: - live parts can be touched when the mains adaptor has not yet been fully inserted into the socket: - the two pins of the plug are not insulated, and are conductive and exposed along their entire length, - the same fault occurs when an earthing contact plug is inserted into the product; - it is possible to insert safety plugs, thereby disabling the protective conductor function. The upstream circuit breaker does not recognise contact with a current-consuming appliance in the event of a fault. In particular, unreliable plug extensions can be produced; - euro and safety plugs could be improperly inserted (possibility of touching the exposed plug pin, risk of electric shock); - Protection Class I (protective conductor) incorrectly indicated on the packaging and mains electricity incorrectly indicated as 220 volts (should be 230 volts). The product does not comply with the Low Voltage Directive.
