Product Candles

Brand KAEMING

Type / number of model Code 202202, Bar code: 8 717427 351920

Product description Food-imitating decorative candle in a shape of a small raspberry tart (approx. dimensions: diameter 42cm, height 3 cm). The candles are packed in six pieces in a transparent box, with gold coloured base and the figure of a lady on the side. On the outer bottom side of the package the following warning is written: "warning! this is not for consumption!! please keep away from children and animals". The candles could be bought separately.

Risk type Choking

Risk description The product poses a risk of choking due to its characteristic form, appearance, colour and size, the product may be mistaken for a foodstuff. This may lead children to put it in their mouth and swallow it, which could entail the risk of asphyxia or obstruction of the digestive tract. The product does not comply with the Directive 87/357/EEC on products which, appearing to be other than they are, endanger the health or safety of consumers.

Alert number 0364/08

Notifying country Greece

Product category Motor vehicles

Type Consumer

Product Passenger car

Brand VOLVO

EC-type approval/model Passengers' cars, model XC90 diesel

Product description The recall concerns 2007 and 2008 model year vehicles.

Risk type Injuries

Risk description The product poses a risk of injuries because the power steering hose may get in conflict with the engine cooling fan. This concern is due to an insufficient retaining clip. The insufficient basic design regarding fixation of the power steering hose enables it to come in direct contact with the rotating fan. The subsequent chafing on the hose will result in a sudden drainage of servo oil in the system and a loss of servo assistance. Since this will appear suddenly and without any relevant warnings to the driver, combined with the type of vehicle concerned, this condition poses an unreasonable risk to motor vehicle safety.

Product Car cabin heater

Brand Engströms (BILTEMA)

Type / number of model EMV 2001 (Art.40-410)

Product description Cabin car heater with plastic enclosure and rubber mains cord.

Risk type Electric shock

Risk description The product poses a risk of electric shock because there is not sufficient electrical insulation in the product. At the bending test when rotating the complete cable around a mandrel with diameter 32 mm at 35 ± 2 °C temperature, it shows cracks both at the sheath and at the insulation such that the wires of the conductors are accessible. The cable shall withstand the bending test without showing any cracks. This product does not comply with the Low Voltage Directive.

Type	Consumer
Product	Joke items
Brand	Unknown
Type / number of model	EAN 085754152410, Patent NO.ZL02237051.X, Ref.: MO1-B
Product description	The product resembles a remote control with a metal housing, small black buttons and a central button outlined in red which, when pressed, produces a series of electrical impulses. It is sold in cardboard packaging bearing images and instructions for the installation of the batteries (in English). The following warnings appear, also in the English language: - “warning: choking hazard – small parts; not for children under 14 years.”; - “warning: use at your own risk, not recommended for children under 14, adults over 50 years old or persons under any medical conditions”, and - “made in china”.
Risk type	Electric shock
Risk description	The product poses a risk of electric shock because it produces a series of electrical impulses when the central button is pressed. The electrical impulses are generated between the button pressed and the metal housing of the toy. Consequently, a flow of current is produced that passes through the hand of the user and is enclosed between the

palm of the hand holding the toy and the finger pressing the central button (usually the thumb). This product does not comply with the Low Voltage Directive and the relevant European standard.

Notifying country	The Netherlands
Product category	Electrical appliances and equipment
Type	Consumer
Product	Fryer
Brand	Tefal
Type / number of model	FR7009
Product description	Unknown.
Risk type	Fire
Risk description	The product poses a risk of fire because once the appliance has been switched on and the voltage falls below 230V, the relay, which controls the power of the heating element, goes on and off more frequently than during periods of normal voltage. In this kind of situation, the silver contact points could self-destruct, thereby ending up in a locked position. This results in constant heating and a potential risk of overheating. 20 incidents reported. This product does not comply with the Low Voltage Directive.

Notifying country Greece

Product category Motor vehicles

Type Consumer

Product Passenger car

Brand LAND ROVER

EC-type approval/model Passengers' cars, model Freelander 2/LR2 (program number P009).

Product description The recall concerns 2007 and 2008 model year vehicles, with VINs from H000201 to H087347.

Risk type Injuries

Risk description The product poses a risk of injuries due to possible loss of the glass panel of the sunroof. Failure of either the left-side or right-side sunroof guide rail could cause the sunroof to become detached from its operating mechanism and bind. There might be a cracking noise if this condition occurs. If it does occur, the sunroof glass panel will remain attached to its frame, but further attempts to operate it will result in continued noise and abnormal operation due to the binding condition. If a vertical force is applied (for example, if the user is manually aiding the sunroof to close, or wind lift) the glass panel can become fully detached from the vehicle.

Country of origin United Kingdom

Product Elastic luggage straps

Brand Cosmic

Type / number of model 60182

Product description Elastic luggage straps for securing small loads.

Risk type Injuries

Risk description The product poses a risk of injuries because the elasticised cords can be pulled through the metal hook assemblies causing them to recoil. The cords fail at forces of 192, 185, 147 and 184 N whereas the relevant standard requires such straps to withstand 400 N without failing.

Product	
Brand	NURSE
Type / number of model	Model: BUFFET, Bar code: 8430488303140.
Product description	Blue table seat built on a metal structure which is fastened to the table top. The labelling carries the brand Baby Nurse and the bar code.
Risk type	Choking Injuries Suffocation
Risk description	The product poses a risk of : suffocation, and injuries because: - choking because the “Nurse” label sticker on the back of the seat comes off under a force of less than 50 N, and this component fits entirely into the small-parts cylinder, - suffocation because the side openings allow the 110-mm diameter test cone to pass through, - injuries because during the dynamic strength test the seat and the fastenings move continuously posing a risk of falling for children. The product does not comply with the European standard EN 1272.
