Notifying country Finland

Product category Clothing, textiles and fashion items

Type Consumer

Product Baby's overall

Brand MINI CLUB

Type / number of model Unknown

Product description A dark blue baby's overall with colourful figures, 100 % polyester (fleece). The zip is in the front side of cloth.

Risk type Chemical

Risk description The product poses chemical risk because the rate of nickel release from the back part of the zip, which is against the skin, is 2,2 - 13,2  $\mu\text{g}/\text{cm}^2/\text{week}$ , which exceeds the maximum permitted level of 0,5  $\mu\text{g}/\text{cm}^2/\text{week}$ . The product does not comply with the Chemical Restrictions Directive 76/769/EEC.

Product Child's bib

Brand Unknown

Type / number of model Item no 16133

Product description . Children's bib with different animal figures and with pink, blue or green edging. The front part is white textile material with printed colourful figures, the back part is white plastic material.

Risk type Chemical

Risk description The product poses chemical risk because : - it contains 14-15 % of bis (2-ethylhexyl)phthalate (DEHP) by mass of plasticised material, - it contains high concentration of lead (120-130 mg/kg). The product does not comply with the Chemical Restrictions Directive 76/769/EEC.

Product Garden oil lamps

Brand Unknown

Type / number of model Article N° (original): 09.3817 and 09.3797, N° 351264 and 351266, EAN 8713219209400

Product description Wall oil lamp with glass container (size of glass container 18 cm). Glass container stands unattached in the casing and can be taken out at any time.

Risk type Chemical

Risk description The product poses a chemical risk because due to the absence of the wick guard, the wick and the metal cap holding the wick are placed only loosely. Therefore, the fuel containers can be easily removed from the lamp and thus the lamp oil may be swallowed by children. The product does not comply with the European standard EN 14059
