Product **Passenger car - Smart for two.**

Brand **SMART**

EC-type approval/model **Type: 451, EC type-approval: e1*2001/116*0413**

Product description **Passenger car manufactured by Daimler AG: Vehicles manufactured during the period 19.04.2008-26.06.2008 are affected. Vehicle owners are being notified.**

Risk type **Injuries**

Risk description **The product poses a risk of injuries as under extreme conditions the windscreen or roof may detach due to the paint application which failed to meet requirements because of partial adhesion problems that can arise between individual paint on the tridion cell (safety cell). This may cause the paint to bubble and flake on the outside of the Tridion cell; it also affects the bond with the roof and windscreen components which are attached by adhesive.**

Product

Coffee-maker - "Kaffeeautomat mit 2 porzellan-tassen"

Brand

TOP DESIGN

Type / number of model

CM-401

Product description

The housing of the coffee-maker is made of black plastic. The water tank can be found under the upper part, which opens. There is a metal insert and a transparent water level indicator on the outer cover of the upper part. The coffee tank can be removed; it has two openings, a handle and a removable plastic filter. The mains switch is on the side of the apparatus. Hot water can also be added through a separate pipe. Two porcelain cups are supplied with the coffee-maker. Main components of the product: mains plug: "Yu xin YX-201 16/250V~" + symbols of test houses, mains cable: "H03VV-F 3G0.75mm² BAOHING LTSA-3 N14585 227 IEC 52 2002010105010385" + symbols of test houses, heating element: "230V 400W DX", mains switch: "CJ CJ-108 10A 250V~ T85/55 TÜV PRODUCT SERVICE", thermostat: "KSD301 250V 10A 110°C" felirattal + VDE, thermal fuse. Technical specification: 230V~, 50Hz, 400W; Class I.; IPX0. The product is provided free of charge at product shows.

Risk type

Electric shock

Risk description

The products pose a risk of electric shock because the plastic pipes leading the water in and out of the coffee-maker may be damaged, as the heat resistance of the plastic material is not appropriate. Therefore, there is a

possibility that the water in the water tank could come into contact with live parts. The product does not comply with the Low Voltage Directive and the relevant European standard EN 60335.
