The fan is described in terms of its diameter (43.5 cm), 3 speeds and 45 W with various pictograms. The importer's details also feature.
Risk type	Electric shock
Risk description	The product poses a risk of electric shock because: - there is insufficient protection against accidental contact with the basic insulation and with the metal parts that are separated from the active parts by basic insulation only; - it does not pass the dielectric strength test between active parts and accessible metal parts; - the housing of the appliance does not have the corresponding level of protection against damp; - the appliance does not withstand the humidity conditions liable to occur in normal use; - it does not pass the electric strength test or the subsequent dielectric strength test; - the sleeves used as

additional insulation are not securely held in position; - welds are used to connect the external conductors so that the weld alone holds it in position. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60335.

Product category **Electrical appliances and equipment**

Type **Consumer**

Product **Fan heater**

Brand **Superior**

Type / number of model **FH-03, Series no.: 300821**

Barcode **4042941002381**

Product description **Fan heater, protection class II, rating: 2000 W, white plastic housing, heating element, blower motor, fan, carrying handle. Air intake openings, air outlet openings, thermostat control, automatically resetting temperature limiter, non-automatic resetting temperature limiter, 3-setting switch (1 cold and 2 warm settings), indicator light, approximately 1.5 m mains cable H05VV-F 2 X 0.75 mm² with moulded plug.**

Risk type **Electric shock
Fire**

Risk description **The product poses a risk of fire because the appliance can heat up to such a degree that the housing melts. This makes the live, glowing heating elements accessible, causing the risk of an electric shock. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60335.**

Alert number **0235/10**

Notifying country	France
Product category	Machinery
Type	Consumer
Product	Leaf blower - "Mighty Lite" backpack leaf blower
Brand	Homelite
Type / number of model	HBL26BP
Product description	The product is sold under the Homelite brand. It is a blower, fitted with a 26 cc engine, used to move leaves and other garden waste. The product is mounted on a frame that is worn on the user's back, hence the name "backpack blower".
Risk type	Burns Fire
Risk description	The product poses a risk of burns and fire because the fuel tank may leak. This leak may be the result of a small crack liable to develop in the tank reinforcement, into which a screw for fastening the tank to the central fastening support of the backpack blower fits. The crack may cause fuel to leak from the tank onto the operator's clothes and body. The fuel may also leak onto the floor of the premises where the product is stored. The product does not comply with the Machinery Directive.
