Product category Gas appliances and components

Type Consumer

Product Gas refrigerator - Absorption-Diffusion Refrigerator

Brand Scandic

Type / number of model XC-50, XC-75, XCD-183, XCD-95, XCR-40

Product description Gas refrigerator

Risk type Chemical

Risk description The product poses a chemical risk because an accessory pipe at the top of the exhaust pipe can cause a problem with the combustion that can lead to excessive amounts of carbon monoxide being released into the environment. Two incidents reported. The product does not comply with the Gas Appliances Directive and the relevant European standard EN 732.

Country of origin People's Republic of China

Measures ordered by public authorities Other : Sales ban and recall from consumers ordered by the authorities.

Product category	Toys
Type	Consumer
Product	Scooter
Brand	Unknown
Type / number of model	AL2S38/ AL2S39/ AL2S40, bar code: 5999042301129
Product description	Aluminium scooter - boy's design with PU wheels, and LED lighting. Maximum load is 50 kg (in the instruction manual).
Risk type	Injuries
Risk description	The product poses a risk of injuries because: - when applying the required load, the steering tube bends and thus the user can lose control, - the diameter of the wheels is 20 mm smaller than required, consequently they can easily get entrapped on an uneven surface, - the ends of the handles have a diameter of 22 mm (minimum requirement: 40 mm) which may contribute to loss of control during normal use, - the space between the moving elements is capable of injuring or shearing fingers. Moreover certain metal parts have sharp edges and when the user lifts the scooter, injury may occur. The product does not comply with the Toys Directive and with the relevant European standard EN 71.

Product Folding chair - Piccolo

Brand Idea

Type / number of model 95133385, bar code 9006218200509.

Product description Folding chair made of metal tubing, diameter of 18 mm, with fabric seat and backrest and plastic armrests. Three metal springs of 10 mm diameter, placed in plastic sleeves connect the seat and the backrest. The chair is packaged in plastic.

Risk type Injuries

Risk description The product poses a risk of injuries because the folding mechanism has very strong springs, and unfolding and folding the chair requires a high force, and the user's fingers can get trapped between the seat frame and and the backrest frame, possibly leading to the fracture, or even the loss, of one or more fingers. Six accidents reported.

Product	Inflatable seat - Princess
Brand	Out of the Blue KG
Type / number of model	Article No 62/6150, EAN code: 4029811180073
Product description	Toy seat with pink plush cover embroidered with the word "Princess" in yellow lettering and small flowers, textile fibres; with a zip fastener; containing an inflatable plastic bag with a valve.
Risk type	Chemical
Risk description	The product poses a chemical risk because it contains 29.2% by weight of bis (2-ethylhexyl) phthalate (DEHP) in the film and 24.3% in the valve. The product may be played with or intensely grabbed by a child during long hours without the plush coating and the chair could be taken into the child's mouth, especially if not inflated. The child would thus be in intense contact with the plastic of the chair, and thus the child's exposure to phthalates could be very high.
Country of origin	People's Republic of China
Measures taken by	Other : Voluntary recall from consumers by the importer.

Product Baby shoes - Baby-Schuhe

Brand NKD

Type / number of model Article No: 1542158

Product description One pair of baby shoes, size 3-6 months, made of textile and plastic materials, with textile uppers. Basic colour dark blue, with white and blue stripes on toes and around ankles and red heel seam; embroidered decorative red and blue circle motif on the side; lining of white textile material; sole of white textile material with white plastic protrusions; white and dark blue artificial leather strip running around circumference.

Risk type Chemical

Risk description The product poses a chemical risk because the artificial leather contains 23% by weight (limit: 0.1% by weight) of bis (2-ethylhexyl) phthalate (DEHP). With baby shoes, a regular contact of the child with the parts that contain the plasticiser, and even a mouthing contact, is foreseeable. Babies regularly take objects into their mouth and may suck on shoes or textiles.
