EC-type approval/model Vehicles affected in Spain are in the following chassis ranges:
KX450EB: JKAKX450EEA024030 - JKAKX450EEA024090
KX250YB: JKAKX250YYA008709 - JKAKX250YYA008876
KLX450AB: JKALX450.....

Product description Motorcycle

Risk type Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of injuries because the inner tubes of the wheels may have been pinched during assembly. This can cause a loss of air pressure in the wheels. The loss of air pressure may reduce control of the motorcycle and result in an accident.

Product description Passenger car

Risk type Burns

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of burns because a connector in the upper power steering return line may disengage resulting in the loss of power steering fluid. If this situation should occur, the driver may notice heavy steering and noise. In the worst case, there could be a complete loss of power steering fluid, and steering assistance, without any warning to the driver.
