Product Children's bicycle

Brand Minnie

Type / number of model Type: BMX 12;

Batch number 5998230 309893

Product description Children's yellow bicycle decorated with bird stickers with a pair of stabilisers. The height of the saddle is adjustable and can be fixed with a screw. The bike is equipped with a front-wheel braking system and rear-wheel breaks. On the steering mechanism there is a waterproof protective coating wi

Risk type Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of injuries because: - the static strength of the saddle is not sufficient; - the chainguard does not completely cover the edge of the chain and therefore clothing may get caught; - the stabilisers are too close to the vertical plane of the frame, so the bicycle can easily tip over on uneven surfaces. The product does not comply with the relevant European standard EN 14765.

Product Portable work lamp

Brand Somogyi Elektronik

Type / number of model PL 10,

Batch number 5998312767191; Batch code: 007051

Product description The main components of the lamp: black plastic handle with a two-position, "on-off" switch, metal grid with a hook, E27 lamp holder, 5m long mains supply cable. There is a label with technical data and a brand symbol on the handle. The CE mark, the indoor use symbol (a house), and the Class II mark

Risk type Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of electric shock because: - the distance between the grid and the lamp is less than required so that the lamp can be easily damaged. In this case, the live spiral holders of the lamp may come into contact with the protective covering and grid, - the mains supply cable is not sufficiently insulated. The cable insulation can be easily damaged and the live parts of the cable can become accessible. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN

Product Children's bicycle

Brand Long Cheng

Type / number of model SW2007C29

Product description Young child's 12" bicycle with a pair of stabilisers. The saddle is higher than 435 mm.

Risk type Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses the risk of injuries because: - there are sharp edges on the handlebars and luggage carrier; - using the backpedal brake, the difference between the driving and braking positions of the pedal crank is too high which increases the braking time; - the distance between the pedals and the front mudguard is too small (2.5 mm) and therefore the feet may get caught in the front mudguard during use; - the chainguard does not completely cover the edge of the chain and clothing may get caught; - the static strength of the saddle is not suitable, since the seat is removable, which can cause injury; - the stabilisers are too close to the vertical plane of the frame, so the bicycle can easily tip over on uneven surfaces. In addition, the diameter of the ends of the handlebar is too small. The product does not comply with the

relevant European standard EN 14765.

Product Desk lamp

Brand Technolux

Type / number of model Galapagos 1994 and Galapagos 1995;

Batch number 5 903139 199490 and 5 903139 199599

Product description Turtle-shaped desk lamp. The base component is made of metal. The lamp shade is made of metal and different coloured glass. The lamp plugs directly into the mains and there is no transformer.

Risk type Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply Due to its design, the lamp is attractive to children and could be used as a toy. The lampshade and bulb can be easily removed, thus live parts can become accessible, leading to a risk of electric shock. The product does not comply with the Low Voltage Directive and the relevant European standard EN 60598.

Product Roller blind

Brand Home Innovations

Type / number of model Unknown

Product description A roller blind with a scallop edge border. 100% polyester fabric with a metal top tube. Available in cream, natural and white colours. Sizes: 2ft, 3ft, 4ft, 5ft and 6ft. The blind is operated by a beaded chain cord and has a sidewinder mechanism with a safety device to keep the chain taut.

Risk type Strangulation

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of strangulation as the length of the cord is too long and can form a loop in which a child could become entangled. The product does not bear adequate warnings. The product does not comply with the relevant European standard EN 13120.
