Product category **Toys**

Type **Consumer**

Product **Set of squeezable toy ducks "Hracka" (toys)**

Brand **Iko**

Type / number of model **00418, EAN code: 858503000418**

Product description **Toy duck with three smaller ducks on its back made from softened PVC, yellow colour. Packed in a plastic net bag; marking, 00418, IKO® Germany and others.**

Risk type **Chemical**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

**The product poses a chemical risk because the plastic material of the large duck contains 0.788 % by weight of di-(2-ethylhexyl) phthalate (DEHP), 0,190 % by weight of diisononylphthalate (DINP) and 0,197 % by weight of Dibutyl phthalate (DBP). The plastic material of the small ducks contains 0.657 % by weight of di-(2-ethylhexyl) phthalate (DEHP). According to the REACH Regulation, the phthalates DEHP, DBP and BBP are prohibited in all toys and childcare articles, while phthalates DINP, DIDP and DNOP are prohibited in toys or childcare articles that can be placed in the mouth by children.**

Product **Lighting chain "Glaçon Etoiles Lucioles"**

Brand **Cod'Events**

Type / number of model **Reference: 5VRA434 EAN : 3526780751828**

Product description **Lighting chain with 50 star-shaped light bulbs**

Risk type **Electric shock**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The electrical connections of the conductors to the lights are not protected effectively against tensile stress and consequently live parts can become exposed posing a risk of electric shock. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60598.**

Country of origin **People's Republic of China**

Alert number **1359/11**

Notifying country **Bulgaria**

Product category **Childcare articles and children's equipment**

Type **Consumer**

Product **Children's cot**

Brand **Moni**

Type / number of model **337**

Product description **Children's metal cot, which has a tubular structure with wheels and pink fabric with patterns of green flowers, and drop-down sides made of white net and fabric.**

Risk type **Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

**The product poses a risk of injuries because: - The distance between the base and the sides of the cot is too high; - Openings in the sides made of mesh are too big; - Locking systems are not sufficient; - The fixing of the mattress and the base of the cot is not sufficient so children can easily lift the mattress base or cot base; - The adjustment of the cot base from a higher position to a lower position does not require the use of a tool or operation of a locking system; - Movable sides of the cot are not provided with a locking system engaging automatically when the movable side is closed; -The cot is unstable and may overturn. The product does not comply with the relevant European standards EN 716-1.**

**Injuries  
Strangulation**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply  
**The products pose a risk of strangulation due to the presence of cords in the hood area and a risk of injuries because the trousers have cords at the waist which are too long. The products do not comply with the relevant European standard EN 14682.**

Country of origin **Unknown**
