Product

Children's high chair "Antilop"

Brand

Ikea

Type / number of model

Supplier code 17389 only

Product description

The affected product is ANTILOP children's high chair with detachable legs. ANTILOP high chair is available in white, red and blue and in three variants depending on the market where sold. This recall for repair concerns the high chair belt supplied with the high chair only. Only production dates 06

Risk type

Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The high chair buckle can open unexpectedly, creating a fall hazard. Three incidents reported.

Product **Soft toy "Homer", "The Simpsons" collection**

Brand **United Labels**

Type / number of model **REF 0803760 EAN 8 423 599 037 608**

Product description **Soft toy in the shape of Homer, one of the characters from the series "The Simpsons".**

Risk type **Choking**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The product poses a risk of choking because the seam is loose and allows access to the stuffing and to a bag of plastic balls. The bag itself cannot be completely removed via the seam. However, it releases the little plastic balls, which can be ingested or inhaled. The product does not comply with the Toy Safety Directive and with the relevant European standard EN 71-1.**

Product **Liquid for e-cigarettes 1. Turkish Tobacco Med**

Brand **Esco Technology**

Type / number of model **Unknown**

Product description **2 plastic dropper bottles with plastic screw caps and printed labels. The label of the "Strawberry Low" sample has a picture of fruits. Brown liquid. Contents of package: 10 ml.**

Risk type **Chemical**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

Because of its presentation (i.e. a label depicting fruits), the "Strawberry Low" sample is considered to be a harmful product that can be mistaken for a foodstuff. In the same way, since the "Turkish Tobacco Med" sample is to be stored in a household refrigerator along with food, it cannot be ruled out that it will be mistaken for a foodstuff and harm the health of consumers. Similarly, it cannot be stated with certainty that children will not ingest the product. The "Strawberry Low" sample had a nicotine yield of 9.3 g/kg. In the "Turkish Tobacco Med" sample, a nicotine yield of 4.8 g/kg was determined. In Opinion No 013/2008 of 5 January 2008, the Federal Institute for Risk Assessment (BfR) determined that the ingestion of only around 5 mg of nicotine per kilogram of body weight can cause death. Under § 5(2)(2) LFGB, it is prohibited to manufacture for others, to process or to place on the market products that can be mistaken for food.

Product **Sky lantern "Flying Lanterns"**

Brand **SKY LANTERS**

Type / number of model **Reference: 10343**

Batch number **-**

Product description **Square-shaped flying lanterns in a transparent plastic bag with information given in English.**

Risk type **Burns
Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The product poses a risk of burns and fire because, after launching, the lanterns fly in the air without control. It is then very difficult or impossible to avoid the lanterns coming into contact with flammable material, e.g. dry vegetation or buildings.**
