Risk type **Electric shock
Fire**

Legal provisions (at EU level)
and European standards
against which the product was
tested and did not comply

The product poses a risk of fire and electric shock because the power supply unit supplied with the product: · is not designed to withstand foreseeable overloads; · has pins that are inadequately sized. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 61558 and the relevant national standard BS1363.
