Product Lighting chain "LED 100 Lampen Nur für Innen"

Brand Unknown

Type / number of model

Batch number 8882015862239

Product description LED lighting chain for interior use. The light colour of the 100 LED lamps is white, and the insulation is green. They are connected to the supply network by a Europlug. The cable is connected to a programme controller, and the LEDs run in a row in several strands from this cable. Various lighting o

Risk type Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of electric shock because: · The product is marketed as an outdoor lighting chain but has no protection from penetration by external liquids · The cover on the control unit can be easily opened without the use of a tool. When the cover is open, the live mains connections can be touched accidentally. · The control unit does not have any strain relief device for the mains voltage cables. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60598.

Product Pressure cooker "Smartplus Stainless Steel Pressur

Brand Prestige

Type / number of model Model Number 57050. Dates codes 0401(January 2004) to 1202 (February 2012)

Product description Stainless steel pressure cooker.

Risk type Burns

Legal provisions (at EU level) and European standards against which the product was tested and did not comply In the event of a blockage in the pressure regulator, the rubber gasket may not release excess pressure as intended. In a small number of cases, this may present a risk of pressurised steam/food particles being released forcibly from the rim of the lid, or movement of the pressure cooker, giving rise to burning or scalding. The product does not comply with the Pressure Equipment Directive.

Product category Lighting chains

Type Consumer

Product Lighting chain Гирлянда Световая (Lighting Chain)

Brand Unknown

Batch number 4 606055 336253

Product description A lighting chain with 100 serial-parallel connected, non-replaceable LED lamps.

Risk type Electric shock
Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of electric shock and fire because:

- The cross-sectional area of the wires is not sufficient and the wires can consequently overheat.
- The wire ends soldered to the terminals of the flashing switch and control unit and the LEDs are not adequately protected against pulling and twisting.
- The accessible wires have only basic insulation and if they come into contact with sharp edges of the flashing switch and the control unit they could be damaged resulting in live wires become accessible.
- The dimensions of the plug are substantially less than required and during connection the user may touch the pin of the plugs.
- The electric insulation is not sufficient. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60598.

Country of origin Unknown
