Product **Plastic flute**

Brand **SUCCESSO**

Type / number of model

Batch number **8800824004343**

Product description **White plastic flute with a removable mouth-piece. Sold in a plastic bag, which is transparent on one side and blue on the other. It has a label bearing the brand and importer's name, among other information.**

Risk type **Choking**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The product poses a risk of choking because it contains a removable mouth-piece which is a small part that could be placed in the mouth and swallowed. In addition, the labelling requirements are not met. The product does not comply with the Toy Safety Directive and with the relevant European standard EN 71-1.**

Product **Charger "L-Chocolate Cellular Charger"**

Brand **Cellular**

Type / number of model **Unknown**

Product description **Black plastic phone charger in a white and blue card box.**

Risk type **Electric shock**

Legal provisions (at EU level)
and European standards
against which the product was
tested and did not comply

The product poses a risk of electric shock because:

- **The quality of the bonding between the two halves of the charger casing is poor. Live parts could be exposed if this bond failed.**
- **The insulation between the primary and secondary windings is not equivalent to reinforced insulation and creepage distances are insufficient. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60950.**

Product **USB Charger YXT-030 for 3G/3Gs/4G**

Brand **yongxingtong**

Type / number of model **Model: YXT-030**

Product description **USB charger kit with charger to use in car. Packaged in plastic and cardboard.**

Risk type **Electric shock**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The mains charger supplied with the product poses a risk of electric shock because:

- The wires to the live mains plugs pins are not secured independently of their soldered connections.
- Creepage distances are insufficient between “live” and “accessible” printed tracks.
- The insulation between the primary and secondary windings of the transformer is not equivalent to reinforced insulation.
- Creepage distance of the windings is not sufficient.
- The pins of the plug are too short.
- The pins of the plug can break.

The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60950.

Brand **Unknown**

Type / number of model **KJ-TC02A**

Product description **Mobile phone travel charger packaged in cardboard box.**

Risk type **Electric shock**

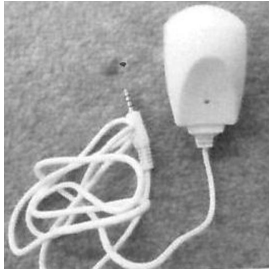

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of electric shock because:

- **Insulation within the charger is wrongly positioned and does not cover the connections on the live plug.**
- **Wires to the live mains plugs pins are not secured.**
- **Creepage distance between “live” and “accessible” printed tracks are not sufficient.**
- **Insulation between the primary and secondary windings of the transformer is not equivalent to reinforced insulation.**
- **Creepage distances between primary and secondary windings are not sufficient.**
- **It does not have sufficient mechanical strength and the pins can break. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60950.**

Neck & Neck

Type / number of model

**Ref. 11/01129 (size 12M)
ref. 11/01119 (size 4A)**

Batch number

-

Product description

The products are dresses. One of them (ref. 11/01129) has decorative cords (red) at the chest and waist. The other (ref. 11/01119) has a decorative motif (blue) at the neck.

Risk type

**Injuries
Strangulation**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

Both products pose a risk of strangulation because the decorative cords in the chest and waist area and the decorative motif sewn in the neck area, are too long. In addition, the products pose a risk of injuries because if the cords becomes trapped they can pull on the child unexpectedly, causing the child to fall and suffer injuries. The products do not comply with the relevant European standard EN 14682
