The lighting chain includes serial connected, non-replaceable 50 LED lamps and a rectifier unit. The lights are attached to plastic icicle forms. Packaging: cardboard box.

Risk type

Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of electric shock because:

- The wire ends soldered to the LEDs are not adequately protected against pulling and twisting.
- The accessible wires have only basic insulation. If the insulation is damaged, live metal parts become accessible.
- The cover fixing screw joints of the rectifier unit do not have sufficient strength. During normal use the covering of the rectifier unit can open and live parts become accessible.
- It is not protected against moisture but is recommended for outdoor use. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60598.
