Risk type

Burns
Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The products pose a risk of burns and electric shock because:

- The cross section area of the external wires is not sufficient and the wires could consequently overheat.
- The wire ends soldered to the terminals of the control unit are not adequately protected against pulling and twisting and live metal parts could consequently become accessible.
- The insulation resistance is not sufficient. The products do not comply with the Low Voltage Directive (LVD) and the relevant

European standard EN 60598.

Product description Lighter in the shape of a fire extinguisher, length 15.5 cm.

Risk type Burns
Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The lighter has the shape of fire extinguisher which is recognized as appealing to young children. It is therefore probable that a child will play with it and suffer burns due to the flame or cause a fire. The product does not comply with the Commission Decision 2006/502 EC prohibiting the placing on the market of novelty lighters.
