Product description Lighting chain with 105 miniature lamps operating directly from the mains. Packaging: colourful cardboard box.

Risk type Electric shock
Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of electric shock and burns because:

- The cross-sectional area of the external and internal wires is too small and the wires can thus overheat.
- The accessible wires have only basic insulation and if they are damaged the live conductors can become accessible.
- The electrical insulation is not sufficient.
- The dimensions of the socket-outlet are not as required and it is possible to insert a single pin of a plug leaving the other live pin accessible. The product does not comply with the Low Voltage

Directive and the relevant European standard EN 60598.

Risk type	Fire
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	Under certain severe operating conditions, water, rain, or other liquid may enter the driver’s window and reach the master power window switch resulting in impaired functioning of the switch. If the master power window switch is damaged as a result of liquid intrusion it may result in failure of the switch and overheating. An overheated switch may cause smoke, melting or, potentially, a fire.
