Name **Evoque**

Brand **Range Rover**

EC-type approval/model **e11*2007/46*0223 Certain 2012 and 2013 model year vehicles manufactured between 20 August and 18 September 2012 are potentially affected.**

Production dates **Vin range SALVA2BG0CH704223 to SALVA2AE6DH713526**

Product description **Passenger car.**

Risk type **Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

In very extreme cases, fatigue failure of one or both of the steering gear mounting fixings may occur. Should both bolts fatigue, the steering gear will slip into a fixed position within the vehicles front sub-frame, restricting the available steering lock. Restricted steering lock would prevent the driver from being able to steer the vehicle as normal. Should this occur, the driver may not be able to take evasive steering action in an emergency, leading to an increased risk of a vehicle crash.

Product description **Passenger car.**

Risk type **Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **One or both of the brake caliper fixings may become sufficiently loosened to detach from the vehicle. Should both fixings become detached, the brake caliper may detach from the rear suspension knuckle and impact with the rotating road wheel, leading to loss of function of a brake circuit and potential sudden deflation of the associated wheel and tyre assembly. Loss of a brake circuit's function or sudden deflation of a tyre will lead to an increased risk of a vehicle crash.**

Product description

Wireless doorbell. The product consists of two parts: one wireless part containing a speaker and an infrared sensor and one plug-in unit which operates as a remote receiver and loudspeaker. Sold in transparent plastic packaging.

Risk type

Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

There is a risk of live parts becoming accessible which could result in users suffering an electric shock: - Internal wiring of the power supply can be rotated, leading to their breaking from the terminal connections. - Conductors are fixed so that reliance is placed upon the soldering alone to maintain the conductor in position. - Thermoplastic parts, on which parts at hazardous voltage are directly mounted, are not resistant to abnormal heat. The product does not comply with the R&TTE Directive and the relevant European standards EN 62080 and EN 60950.

Batch number **6 438022 389881**

Product description **Archery set with bow and arrows packed in a cardboard box with a window.**

Risk type **Damage to sight
Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of damage to sight because it incorporates a Class 3 laser (output power 4,9 mW). The laser beam output level is 10 times higher than 0,39 mW, which is the limit value for class 1 lasers allowed in toys. The product also poses a risk of injuries because when the arrows are shot the maximum permissible kinetic energy level may be exceeded. Hence there is a danger of external injuries, and sensitive areas such as the face, and above all the eyes, are particularly at risk. The product does not comply with the Toys Directive and with the relevant European standards EN 60825 and EN 71-1.
