Product Solar Panel

Name Unknown

Brand Scheuten Solar

Type / number of model Multisol P6-66, P6-60, P6-54 and P6-48

Batch number Unknown

Product description Solar panel. On the back of the panel there is a junction box with the text "Solexus" and "Alrack", which is for connection via special wiring cables. The solar panel will usually be a part of a Photovoltaic (PV) system.

Risk type Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of fire due to fretting corrosion of the tin plated contact in the junction box and the junction box heating up. The heat could cause a fire if combustible material is placed near the junction box. The product does not comply with the Low Voltage Directive (LVD).

Product Herbal & Aromatherapy Vaporizer

Name Unknown

Brand Noble vapour

Type / number of model VP300

Batch number Unknown

Product description Herbal & aromatherapy vaporizer with an octagonal design; packed in a cardboard box.

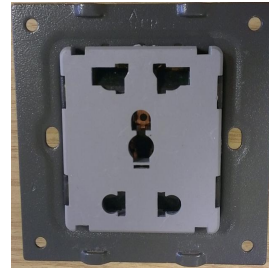

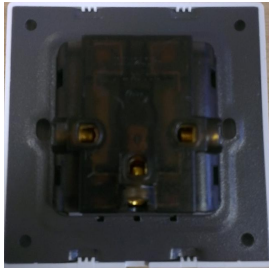

Risk type Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of electric shock because the vaporizer has inadequate protection and the levels of insulation are unsuitable. In addition, the supply cord has not been securely anchored and a failed termination could lead to arcing and, in extreme circumstances, to live parts being exposed. The product does not comply with the Low Voltage Directive (LVD) and the relevant European standard EN 60335 and the relevant national standard.

Name	IS
Brand	Lexus
EC-type approval/model	The recall concerns left hand drive vehicles. Year: 2005-2011. VINs are available in the attached document .
Product description	Passenger car.
Risk type	Injuries
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	The wiper arm nuts on the front wipers may be insufficiently tight. If the movement of wipers is restricted by an external load, such as a build-up of heavy snow on the windscreen, the wiper motor torque may exceed the wiper arm slipping torque, and one, or both, of the wipers could become inoperative. If this occurs, driver visibility could be reduced, which could lead to an accident.
