Product Key-ring with soft toy

Name Cars

Brand Joy-Toy

Type / number of model 1000384, Lightning McQueen

Batch number 8033662337614

Product description Soft filled toy (1000384, Lightning McQueen) attached to a key-ring with chain.

Risk type Choking

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The poses a risk of choking because small parts (chain link) can come loose and may be put into the mouth and swallowed by children. The product does not comply with the Toy Safety Directive and with the relevant European standard EN 71-1.

Product Magnetic Putty

Name Super Magnetic Strange Attractor

Brand Crazy Aaron's Thinking Putty

Type / number of model ST020

Batch number 71812278685

Product description Black magnetic putty with a square, super-strong magnet in a round metal container. There is a label with a warning: "Choking hazard. Age 14+ Product contains a small magnet". On the back of the container there is a warning label in Swedish and a CE-mark.

Risk type Choking  
Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of injuries (intestinal blockage) because it contains a small magnet cube with a high magnetic flux value. The product poses a risk of choking because small parts can easily be swallowed by children. The product does not comply with the Toy Safety Directive and with the relevant European standard EN71-1.

Batch number Unknown

Product description Insect killer in the form of a toy tennis racket in bright child appealing colours.

Risk type Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The current and energy of the charged grids are too high. After disconnection of the charging circuit, the voltage on the grid is too high. As a result, the user may receive an electric shock when touching the grids or during maintenance, for example when replacing the batteries. The design and method for using the product are likely to make it appealing to children. The product does not comply with the Low Voltage Directive and the relevant European standard EN 60335.

Risk type Burns  
Electric shock  
Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of burns, electric shock and fire because: - The cross-section area of the external wires is not sufficient and the wires could consequently overheat. - The wire ends soldered to the terminals of the control unit are not adequately protected against pulling and twisting and live metal parts could consequently become accessible. - The insulation resistance is not sufficient. The product does not comply with the Low Voltage Directive and the relevant

European standard EN 60598.
