Type Consumer

Product Stationery products

Name Kul med Scrapbooking

Brand Kärnan

Type / number of model 250095a (batch no 0343)

Batch number 7317442500955

Product description A set of stationery products for making scrap books. One of the products is a glitter pen with a plastic grip made of PVC.

Risk type Chemical

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a chemical risk because the plastic grip on the gel pen contains di-2-ethylhexyl phthalate (DEHP) (measured amount 21-25 %). According to the REACH Regulation the phthalates DEHP, DBP and BBP are prohibited in all toys and childcare articles, while phthalates DINP, DIDP and DNOP are prohibited in toys or childcare articles that can be placed in the mouth by children.

Product Passenger car

Name Corolla, Corolla Matrix, Voltz

Brand Toyota

EC-type approval/model The vehicles in question were manufactured between 28 December 2001 and 3 May 2004.

Product description Passenger car.

Risk type Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The front airbags and/or the pyrotechnic seat-belt tensioner units can loosen unintentionally. The airbag control device was manufactured using application-specific integrated circuits (ASIC), which are susceptible to internal short circuits. If the control device is subjected to strong inductive electrical noise - caused by other electrical components in the vehicle - this can result in an internal short circuit. Abnormal current flow can arise in the airbag control device, causing the interior temperature to increase, potentially damaging the ASIC.

Product description Lighting chain with 240 miniature lamps. The miniature lamps are red, yellow, green and blue. Packaging: a colourful cardboard box.

Risk type Burns  
Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of burns and electric shock because:

- The cross-sectional area of the external and internal wires is too small and they can overheat.
- The wire ends are not adequately protected against pulling and twisting.
- The accessible wires have only basic insulation and are in contact with sharp edges.
- The electrical insulation is not sufficient.
- The product is recommended for outdoor use but is not protected against moisture. The product does

not comply with the Low Voltage Directive and the relevant European standard EN 60598.
