Electric shock**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The product poses a risk of burns due to the insufficient dimension of the cross-sectional area of the external and internal wires. The product poses a risk of electric shock because the wire ends soldered to the terminals of the flashing unit and the LEDs are not adequately protected against pulling and twisting and live metal parts could consequently become accessible. Moreover, the structure of the cord extension socket enables single-pole insertion of plugs. The product does not comply with the Low**

Voltage Directive and the relevant European standard EN 60598.

Country of origin **Unknown**

Measures ordered by public authorities **Recall of the product from end users

Alert number **[A12/0629/13](#)**

Notifying country **Hungary**

Product category **Clothing, textiles and fashion items**

Type **Consumer**

Product **Children's jacket**

Name **Unknown**

Brand **Fjhu**

Type / number of model **Model: FSW1213**

Batch number **Unknown**

Product description **Hooded jacket for children with zip. The hood includes an unattached elastic drawstring with knots and plastic toggles on the ends. The product is available in pink, blue and purple colours. The size is 134.**

Risk type **Injuries
Strangulation**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The product poses a risk of strangulation due to the presence of drawstrings with knots and toggles with free ends in the hood. The product poses a risk of injuries because the rubber in the drawstrings can cause the toggles to easily spring back when pulled.**
