Product Party blowers

Name Unknown

Brand Disney

Type / number of model model Winnie the Pooh

Batch number 5201184094587

Product description Pack of six party blowers with a white nozzle and a violet paper roll. The packaging is a transparent plastic bag with a cardboard flap which contains information in several languages about warnings of use, age restriction symbol, CE marking, barcode, importer's details and country of origin.

Risk type Choking

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of choking because small parts (adhesive tape and paper roll with wire) can be detached from the product and may be get stucked in the mouth of children blocking the airways. Since the small part which becomes detached is not supposed to be put in the mouth but is rather a part further away from the mouth, the risk of obstruction of the respiratory tracts exists but the risk level is less than

serious. The product does not comply with the Toy Safety Directive and the relevant European standard EN 71-1.

Product Lighting chain

Name Happy Diwali Light 100L

Brand Unknown

Type / number of model 100L

Batch number 6 332612 881208

Product description The lighting chain is made of 100 serial-parallel connected and non-replaceable miniature LEDs. The product can be operated by a flashing switch and control unit (8 functions). The product is packed in a colourful cardboard box.

Risk type Burns
Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of burns and electric shock because:
- The cross-sectional area of the external and internal wires is less than the minimum requirement, and they could consequently overheat.
- The wire ends soldered to the terminals of the flashing switch and control unit and the lamps are not adequately protected against pulling and twisting. As a result, live metal parts could become accessible to the user.

- The accessible wires have only basic insulation and come into contact with sharp edges of the flashing switch and control unit. In case of damage, live metal parts become accessible to the user. The product does not comply with the Low Voltage Directive and the relevant standard EN 60598.
