Product Activity toy

Name Ma pyramide d'anneaux - My pyramid of rings

Brand Baby

Type / number of model Model 451782

Batch number 4897028121512

Product description Pyramid with five stackable rings; three are coloured and the other two are transparent, with small coloured balls inside. The toy is intended for children less than three years old. The packaging is a transparent blister pack with orange cardboard.

Risk type Choking

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of choking because the transparent rings may easily split, releasing small balls which can be swallowed by small children. The product does not comply with the Toy Safety Directive and the relevant European standard EN 71-1.

Type Professional

Product Slurry tanker

Name Vacuum Tanker

Brand REDROCK

Type / number of model 1600 gallon single two wheel axle

Batch number 35505

Product description Slurry tanker is a rolled metal tank which is fixed to an axle. The size of slurry tankers varies, in a typical range from 850 gallon (3865 litres) to 5000 gallon (22730 litres). This type of equipment is found in agriculture, construction, quarries.

Risk type Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of injuries during foreseeable maintenance activity of wheel/tyre removal and replacement on Single Axle slurry tanker. The machinery design does not include a jacking or propping point, so there is no strong point available. Therefore, the movement of the raised vehicle leads to overturn and crushing. The movement of the jack or prop leads to instability and overturn. A full or partially full liquid load increases the risk of movement and overturn.

Working close to the body of the machine, under it, in front of the wheel arches means the operator is within the danger zone, thereby increasing risk of injury. 1 fatal accident reported. The product does not comply with the Machinery Directive 2006/42/EC and with the relevant national standards.

Product description White plastic 3 pin travel charger. Encased in plastic clamshell case.

Risk type Electric shock  
Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The adapter poses a risk of electric shock and fire because: - the insulation is insufficient; - it does not have sufficient mechanical strength; - it is not designed or manufactured to withstand foreseeable overloads; - the construction of the pins is not adequate which could lead to overheating. The product does not comply with the Low Voltage Directive and the relevant European standard EN 61558.
