Product Baby Monitor

Name Movement and Sound Baby Monitor

Brand Angelcare

Type / number of model AC1100, AC201, AC300, AC401 AC601 and 49255

Batch number Unknown

Product description Baby movement and sound monitor packaged in a cardboard box and consisting of a movement detection pad, a base station antenna, a power supply and a wireless terminal.

Risk type Strangulation

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The base station of the monitor is connected to the movement pad by means of a wire. If affixed incorrectly, the wiring can be reached by the child present in the crib. As such the wiring, being accessible to the child, can pose a strangulation risk to the child. 2 accidents reported.

Product Rechargeable torch

Name Unknown

Brand Kocmoc

Type / number of model Model: A-613LX (on the product), YM-009 (on the packaging)

Batch number Bar code: 6 905348 060096

Product description Rechargeable torch with 4 LEDs. The battery can be charged by means of the built-in plug and plug adaptor.

Risk type Electric shock
Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The pins of the built-in plug and adaptor do not have an insulating collar. When inserting the plug the user may touch the live pins. Single-pole insertion of the plug is possible with the free remaining live pin accessible. Parts of the torch can be removed by hand during charging leaving live parts accessible. The cross sectional area of the cores of the internal wires is too small. In case of a short circuit the internal wires may overheat and can cause a fire. The product does not comply with the Low Voltage Directive and the

relevant standards EN 60598 and IEC 60884.

Brand Divi

Type / number of model No.1 - 008032

Batch number Unknown

Product description Bunk bed supplied in five cardboard boxes.

Risk type Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of injuries to children because: - The upper surface of the bunk bed is not equipped with safety barriers all around the bed; - The safety barriers in the upper bed are too low; - The opening for access to the upper bed is too wide; - The safety barriers as well as bed base elements are not sufficiently strong and may easily break. As a result, children may easily fall from the upper bed. In addition the gaps between adjacent support elements (bands and bars) are too wide which may cause injuries to fingers or hands. The product presents also accessible sharp edges which may injure children. Finally, there are no instructions and no safety

warnings. The product does not comply with the relevant European standard EN 747-2.
