Product description **Lighting chain with 180 white or purple LED lamps. There is a socket outlet that allows the connection of another lighting chain. Packaging: transparent plastic box with a label.**

Risk type **Burns  
Electric shock**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The cross-sectional area of the external and internal wires is too small and the wires could overheat. The wire ends soldered to the terminals of the flashing unit and the LEDs are not adequately protected against pulling and twisting. The accessible basic insulated wires can come into contact with sharp edges of the flashing switch and control unit. The product is not protected against moisture but is recommended for outdoor use. The extension socket allows the single-pole insertion of a plug with the free remaining live pin accessible. The product does not comply with the requirements of the Low Voltage Directive and the relevant**

Product description

**Metal scooter, chrome-coloured, with folding mechanism.**

Risk type

**Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

**The diameter of the wheel and the fork is not sufficient and a finger could be inserted, causing the risk of injury, and the steering tubes can break easily, leading to an accident. In addition, the diameter of the packaging bag is too large and could cover the mouth, nose or head of a child causing suffocation. Warnings and information for users are insufficient. The product does not comply with the Toy Safety Directive and the relevant European standard EN 71-1.**

Product **Electric coffee maker**

Name **Electrical Brewing Pot**

Brand **Homotech**

Type / number of model **NE-201**

Batch number **5605645287974**

Product description **The product consists of two parts. The first part is a white plastic, coverless coffee pot with a handle on the side. The second part is a white, plastic base with a plug cord on the side. The product comes in coloured, cardboard packaging.**

Risk type **Burns  
Electric shock  
Fire**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **During normal use, the thermal fuse fails to operate in time allowing generation of excessive heat at the plastic base. This can lead to a fire and electric shock due to live parts being exposed. There is no water level marking which could lead to the pot being overfilled. In the event that the product is operated beyond a certain time, the pot could overflow when it is lifted from the base causing burns to the user. The product does not comply with the Low Voltage Directive and the relevant European standard EN 60335.**
