Product description

Machine for plucking feathers from poultry.

Risk type

**Electric shock
Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The cables or single wires can detach from the cable clamp by mechanical stress such as vibration of the machine. Thus, electrical voltage can appear on parts of the machine or its covering causing a fatal electric shock if somebody should touch them. Movable transmission parts can be touched through the feather chute at the side of the machine and from underneath the machine. The machine does not stop when the flap is open and therefore parts of the body of the user may come into contact with rotating machine parts causing injuries. The product does not comply with the requirements of the Machinery Directive 2006/42/EC and with the relevant European standards EN 60204, EN 60352, EN 60034.

Saturn: Ion, Sky**

Production dates **Years of construction: 2006-2010: Pontiac Solstice 2007-2010: Pontiac G5 2003-2007: Saturn Ion 2007-2010: Saturn Sky 2007-2009: Daewoo G2X**

Product description **Passenger car**

Risk type **Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **Under certain conditions there is a risk that the ignition switch in the vehicles may move out of the “run” position, resulting in a partial loss of electrical power and turning off the engine. This risk may increase if the key ring is carrying added weight (such as more keys or the key fob) or the vehicle experiences rough road conditions or other jarring or impact related events. When the ignition switch is not in the run position, the air bags may not deploy if the vehicle is involved in a crash, increasing the risk of injury or fatality. Some vehicles may also have a condition in which the ignition key may be removed when the ignition is not in the “Off” position. In such an event, unintended vehicle motion may occur, resulting in a vehicle crash and occupant or pedestrian injuries.**

Brand **MEGARETH**

Type / number of model **1) 18 mg and 2) 6 mg of nicotine**

Batch number **Batch B/210313**

Product description **Liquid for electronic cigarettes in a 10 ml bottle with screw top.**

Risk type **Chemical**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The products pose a chemical risk because: 1) it contains more than 1% of nicotine (wrongly labelled as 18 mg/ml, it actually contains 20.36 mg/ml) and does not contain an adequate safety label bearing risk-related indications, safety advice or a tactile danger warning. The product does not comply with Directive 1999/45/EC relating to the classification, packaging and labelling of dangerous preparations. 2) it contains nicotine (wrongly labelled as 6 mg/ml, it actually contains 6.34 mg/ml) and there is no adequate safety label bearing risk-related indications. The user therefore has no information on the dangers incurred when the product comes into contact with the skin or when inhaled.

Rattle

Name

Maracas - Toy band

Brand

Bontempi

Type / number of model

MR 1942.2

Batch number

LOT no 5 08 P / 047663065038

Product description

A pair of red plastic maracas. The package is marked on the front with "Toy band", "Play" and "Maracas". Age mark 3+. On the back there are warnings in several languages, the CE mark and pictograms. Weight approx. 43.5 grams.

Risk type

Choking

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of choking because the handle of the rattle is too long and if put into the child's mouth it may get stuck and obstruct the airways. The handle could also trigger a vomiting reaction causing the child to choke. The product does not comply with the Toys Safety Directive and the relevant European standard EN 71-1.
