Product category Childcare articles and children's equipment

Type Consumer

Product Playpen

Name Kojec Nemo

Brand Berber

Type / number of model PR-218

Batch number 5907603462189

Product description Green and blue, foldable playpen with net and two handheld rings.

Risk type Choking  
Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of choking because the rim of the playpen is not resistant to biting, which could lead to small pieces of the foam filling being put in the mouth; a risk of injuries because the static strength of the playpen is not suitable and it could tip over; and a risk of strangulation due to protruding parts with which the child (clothing, soother chain, etc.) could become entangled. The product does not comply with the relevant European standard EN 12227.

Product category	Motor vehicles
Type	Consumer
Product	Passenger car
Name	Outlander
Brand	Mitsubishi
EC-type approval/model	GF6W 4N14
Production dates	Cars produced in 2013 (model year)
Product description	The product is a passenger car Mitsubishi Outlander with 2.2 DI-D engine, affected models are: GF6W 4N14 produced in model year 2013.
Risk type	Injuries
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	Due to improper machining of the oil seal installation hole in the transfer cover, the oil seal may come loose from the hole. This can lead to loss of automatic transmission fluid from the automatic gearbox, thus, there is a possibility of poor gear shifting and illumination of the warning light. In the worst case scenario, the vehicle can no longer be driven.

Lot number: 20/04/2011 1256/171017368/bambola (doll)

Batch number 8033765670258

Product description Plastic doll with accessories (shoes and flowers), supplied in a cardboard box with transparent plastic window.

Risk type Chemical

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a chemical risk because the head of the doll contains di-(2-ethylhexyl) phthalate (DEHP) above the permitted levels (measured values up to 33%). According to the REACH Regulation the phthalates DEHP, DBP and BBP are prohibited in all toys and childcare articles, while phthalates DINP, DIDP and DNOP are prohibited in toys or childcare articles that can be placed in the mouth by children.

3. Batch: W97Y66058 Lot: SS142

Product description Plastic bottles of tattoo ink with an adhesive label and a screw-on pump top. Net quantity: 1 fl oz. (29.6 ml).

Risk type Chemical

Legal provisions (at EU level) and European standards against which the product was tested and did not comply  
The products pose a chemical risk because they contain a high quantity of nickel (Product 1: measured value: 9690 mg/kg) and prohibited colourants (Product 1: CI 77260, CI 21110 and CI 12477; Product 2.: CI 11740; Product 3: CI 77260, CI 21110 and CI 12477 ) According to the Council of Europe Resolution ResAP (2008)1, nickel levels in tattoo inks must be as low as technically achievable, as nickel has a high allergenic potential. The application under the skin of tattoo

inks containing nickel results in permanent contact with a sensitising allergen. The product does not comply with the relevant national legislation.
