Product description **Plastic doll, 30cm, with wings, and a pink brush accessory.
Supplied with three button batteries.**

Risk type **Chemical**

Legal provisions (at EU level)
and European standards
against which the product was
tested and did not comply

The product poses a chemical risk because the head of the doll contains di-(2-ethylhexyl) phthalate (DEHP) above the permitted levels (measured value: 14.3%). Moreover, the product is sold with accessible button batteries, which could be ingested by children. The ingestion of the batteries can enact a short-circuit in the digestive system when they come into contact with liquids. According to the REACH Regulation, phthalates DEHP, DBP and BBP are prohibited in all toys and childcare articles, while phthalates DINP, DIDP and DNOP are prohibited when the toy or the childcare article can be placed in the mouth by children. The product does not comply with the requirements of the Toy Safety Directive.

Product **Magnetic dartboard**

Name **Top of the Town - Magnetic Dartboard**

Brand **D'CASA**

Type / number of model **Ref. 246909**

Batch number **8435309701167**

Product description **Roll-up magnetic dartboard with a tube and cord for easy transport, and six darts. The packaging is a cylindrical tube with an adhesive label.**

Risk type **Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The product poses a risk of injuries because the magnetic discs can easily unscrew from the dart and detach. Since their magnetic flux is too high, ingestion may cause internal damage. Moreover, the discs are too small and may cause injuries to the eyes. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.**

Risk type **Electric shock
Fire**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product poses a risk of electric shock and fire because the mechanical strength of the flashing unit is not sufficient and the user may have access to live parts. The insulation material of the flashing unit is flammable and the cross-sectional area of the external and internal wires is less than the minimum required, thus, they could overheat and the product could easily catch fire. The product does not comply with the requirements of the Low Voltage Directive and the relevant European standard EN

60598.

8712026266071**

Product description

Maracas in seven different colours (white, black, blue, red, yellow, green and pink).

Risk type

Choking

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The products pose a risk of choking because the halves of the rattles, when opened, can release small balls that can be swallowed by small children. Furthermore, the handle of the rattle is too long: children may put it in the mouth where it may get stuck and obstruct the airways. The product does not comply with the Toy Safety Directive and with the relevant European standard EN 71-1.

Product description

Black and silver plastic toy phone in the shape of a smart phone. By pressing the buttons it plays various sounds and it is operated with 3 button cells. The product is supplied in cardboard blister.

Risk type

**Chemical
Damage to hearing**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The battery compartment is easily accessible and the button batteries could be swallowed by children and cause damage to internal organs including the oesophagus and the stomach. Moreover, the product poses a risk of damage to hearing because the sound level is too high. In addition, ingestion by small children may cause choking. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 62115 and EN 71-1.
