Product Plastic toy car

Name Spider Sense Spider-Man

Brand Unknown

Type / number of model 0135B

Batch number Bar code: 9611866000809

Product description Toy car made of coloured plastic with transparent plastic tyres in coloured box with transparent panel.

Risk type Chemical

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a chemical risk because the transparent tyres of the toy car contain 17 % by weight of di-‘isononyl’ phthalate (DINP) and 3.5% by weight of di-‘isodecyl’ phthalate (DIDP). According to the REACH Regulation the phthalates DEHP, DBP and BBP are prohibited in all toys and childcare articles, while phthalates DINP, DIDP and DNOP are prohibited in toys or childcare articles that can be placed in the mouth by children.

Batch number Unknown

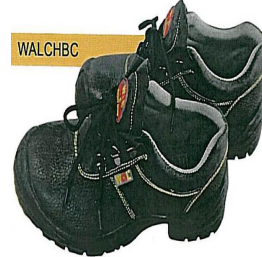

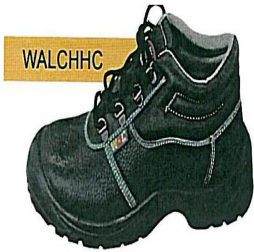

Product description Depend Gelack is a system comprised of four products: Depend GelLack Base, Depend GelLack Color, Depend GelLack Top and Depend Cleanser. Base, colour and top coat is to be applied in layers, each followed by curing in an LED lamp for 30 seconds. According to the packaging, these products should not

Risk type Chemical

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a chemical risk because it contains a high amount of acrylate monomer which has a high sensitisation/allergenic potential and can result in damage to nails and/or hands. Consequently, consumers may develop a lifelong contact allergy. The product does not comply with the Cosmetic Product Regulation.

Product Safety shoes

Name S3

Brand WAL (Work & Leave)

Type / number of model 1.: Model L7141 (WALCHBC)  
2.: Model: M8138 (WALCHHC)

Batch number Unknown

Product description Two different models of safety shoes. Model 1.: Ankle-high safety footwear, L7141, sizes: 38 to 48, Classification I, Protection category S3 SRC. Model 2.: High-ankle safety footwear, sizes: 38 to 48, Classification I. S3 SRC

Risk type Chemical Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The products pose a risk of injuries because the impact resistance is not sufficient and therefore the shoes do not adequately protect against crushing. Moreover, the antistatic properties are insufficient and friction on the footwear could create sparks. The products pose a chemical risk due to the presence of Chromium (VI) (measured values up to 17.8 mg/kg). Chromium (VI) is classified as sensitising and may

trigger allergic reactions. The products do not comply with the requirements of the Personal Protective Equipment Directive and the relevant European standard EN 20344.

Type / number of model 1281

Batch number 8268601281

Product description Hairy, textile cat mask with pink ears and a plastic cat moustache. The mask can be fixed on the head with a rubber band. Packaging: a transparent plastic bag.

Risk type Burns

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of burns due to the high flammability of the hairy material of the mask. If the child wears the mask and it catches fire, the child could suffer burns mostly on the face. The product does not comply with the Toy Safety Directive and the relevant European standard EN 71-2.

Production dates	The vehicles in question were manufactured from May 1999 to August 2006.
Product description	Passenger car
Risk type	Injuries
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	The front passenger-side inflators could create excessive internal pressure during airbag deployment after long-term exposure to high, absolute humidity environments. In a worst-case scenario, the inflator may rupture, possibly causing injury. Even if the inflator does not rupture, due to the specific design of the front passenger-side airbag module with its integrated inflator, any excessive internal pressure of the inflator could potentially result in an increased risk of airbag-induced injuries in a deployment event.
