The housing of the rechargeable torch is made of dark red plastic, with a silver operating button and a red charge indicator LED. The battery can be charged with a built-in mains supply cor

Risk type Electric shock  
Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of fire and electric shock because: • the cross-sectional area of the cores in the mains supply cord is not sufficient. In case of a short circuit the wires may overheat and could cause a fire; • the dimensions of the plug are less than required therefore the user may touch the pin of

the plug during connection; • the storage compartment of the mains has sharp edges. In case of damage to the cord, live parts could become accessible; • the protective lampshade can be removed by hand during charging, resulting in live parts becoming accessible. The product does not comply with the requirements of the Low Voltage Directive and the relevant European standard EN 60598.

Product description A pink, battery-operated, toy telephone with different coloured keys, packed in a gift box. The phone emits sounds and messages.

Risk type Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product poses a risk of fire because the protective insulation of an internal wire could be damaged, creating a risk of short-circuit that could cause batteries and components to overheat. Furthermore, there are no instructions relating to the presence of replaceable batteries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 62115.

Country of origin Canada
