Product Miniature fuses for motor vehicles

Name Car Fuses

Brand AUTO practic

EC-type approval/model Art. № 32900, Car fuses class F

Production dates 8007517329008

Product description A blister pack containing 10 micro blade-type car fuses, including: 2 in brown plastic - 7,5 A; 2 red - 10 A ; 2 blue - 15 A ; 2 yellow - 20 A ; 1 transparent plastic - 25 A and 1 green - 30 A.

Risk type Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The products do not perform the function of a commutation device; namely the fuses take too long to blow when the current is greater than the rated current. If a fuse fails to interrupt excessive current, there is a risk of a fire starting in the electric installation of the car.

Brand Unknown

Type / number of model Unknown

Batch number 4897022970048

Product description USB power supply. Black plug part with white cover. Small red light on the front side.

Risk type Electric shock
Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The distances between the primary and secondary parts of the transformer and on the circuit board are too short in many places. Therefore there is a high probability that the current will take the wrong path leading to heating of components with the risk of fire. The wrong voltage may also come on the USB outlet resulting in a risk of electric shock. The product does not comply with the requirements of the Low Voltage Directive and the relevant European standards EN 60950 and EN 50075.

EC-type approval/model Model: Qashqai (J11). Type Approval No. e11*2007/46*0963*00.

Production dates The recall concerns vehicles, produced from 19/07/2013 to 17/10/2014 and supplied with a Thule/SK tow bar.

Product description Passenger car.

Risk type Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The bolted joints fixing the tow-bar kit to the chassis of the vehicle may loosen under specific towing conditions. This is due to non-removal of vehicle under-body wax and/or insufficient torque applied to the bolted joints. In an extreme situation, where the vehicle continues to be driven with loose bolted joints under specific towing conditions, the tow-bar kit may detach from the vehicle.

Production dates	The vehicles in question were manufactured between June 2001 and October 2014. Information is provided by authorised dealers under code 42.25U09585.
Product description	Bus
Risk type	Injuries
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	The defect only concerns vehicles in which the intermediate steering shaft was fitted as a replacement part. In the vehicles in question, the cover of the two sliding pieces of the intermediate steering shaft is not overlapping enough. The shallow cover can cause increased wear of the pinion near the cover, as the steering forces are applied to a reduced surface. In extreme cases, both sliding pieces can buckle/break off. When the fault occurs, the vehicle can no longer be steered.
