Product Tattoo ink for permanent make-up

Name Micro Pigment - Cosmetic Color

Brand Bio Touch

Type / number of model Dark Red

Batch number Batch 031878

Product description Tattoo ink for permanent make-up in red plastic bottle, with white cap.

Risk type Chemical

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The product contains nickel (measured value 18.2 mg/kg). Nickel can cause skin irritation and induce sensitisation or elicit allergic responses. The Council of Europe Resolution ResAP (2008)¹ on requirements and criteria for the safety of tattoos and permanent make-up, recommends that the content of nickel in tattoo inks should be as low as technically achievable.

Product description 1. Three red apples between green leaves on one plastic branch. The product is sold without packaging. 2. Red plastic apples for decoration. Packaging: four apples in a transparent plastic box.

Risk type Choking

Legal provisions (at EU level) and European standards against which the product was tested and did not comply Due to its characteristic form, colour and size the product may be mistaken for foodstuff. The small apples stalks can be easily detached: children may put them in the mouth and choke on them. The product does not comply with the requirements of the Directive 87/357/EEC on products which, appearing to be other than they are, endanger the health or safety of consumers.

Product description Grey metal LED floodlights with free wire ends for mains connection. Packaging: colourful cardboard box.

Risk type Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply The cable is not properly secured against pulling and twisting and the wire ends can be pulled out easily. The product is not earthed. The PVC cable does not protect properly against the penetration of water. As a result of these defects, the user could touch live parts during normal use. The product does not comply with the requirements of the Low Voltage Directive and the relevant European standard EN 60598.
