Type **Consumer**

Product **Hard plastic toy**

Name **Naughty Ladybird**

Brand **Unknown**

Type / number of model **DL0920 No. 3915**

Batch number **Unknown**

Product description **Hard plastic toy Ladybird with two pink, flapping wings, under which you can see the blue shining body. The yellow ladybird's head includes blue eyes and a red mouth and two fastened spring horns (antennas) with blue beads at their ends. The toy is packed in a cardboard box.**

Risk type **Choking
Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product contains small parts (blue balls at the tip of the antennae, right and left rear wheels before the wheels moving parts, stickers on the wheels) that can be easily detached. A child could put them in the mouth and choke on them. Moreover, the blue plastic ball of the antennae detaches and leaves the end of the springs of the antennae accessible, which present sharp points and can cause injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.

Brand **Mercedes-Benz**

EC-type approval/model **Type: 205; EC type-approval: e1*2001/116*0431*29**

Production dates **Vehicles manufactured between 2 August 2013 and 22 April 2014 are affected.**

Product description **Passenger car.**

Risk type **Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

It is possible that the control unit for the seat heating was not fitted properly to the seat frame in the vehicles affected. This might lead to interference between that control unit and the passenger presence detector, as a result of which a child seat might be incorrectly identified as an adult and the front passenger airbag thereby activated. Alternatively, an adult might be identified as a child seat and the passenger airbag thereby deactivated. As a result, in the event of an accident where the airbags are deployed, there might be an increased risk of injury for the passenger.
