Product description

Rechargeable LED torch supplied with lead to connect to the mains power supply.

Risk type

Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The dimensions of the mains plug are not correct and as a result the user could get an electric shock at the moment of connection or disconnection of the plug. The product does not comply with the requirements of the Low Voltage Directive and the relevant European standard EN 60598.

Risk type **Chemical
Environment**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The stickers contain di-(2-ethylhexyl) phthalate (DEHP) (measured value: 5.5% by weight). DEHP may harm the health of children, causing possible damage to the reproductive system. The stickers also contain di-isononyl phthalate (DINP) (measured value: 0.4% by weight). According to the REACH Regulation, the phthalates DEHP, DBP and BBP are prohibited in all toys and childcare articles, while phthalates DINP, DIDP and DNOP are prohibited in toys or childcare articles that can be placed in the mouth by children. Furthermore, the amount of cadmium in the stickers is too high (measured value: 273 mg/kg). Cadmium is harmful to human health, because it accumulates in the body and can damage organs and it

may cause cancer. The product does not comply with the REACH Regulation. The product poses an environmental risk (chemical pollution) due to the presence of short chain chlorinated paraffin (SCCP) (measured value 0.2%). The product does not comply with the Commission Regulation on persistent organic pollutants (POP Regulation).

The stickers also contain di-isononyl phthalate (DINP) (measured value: 0.9% by weight). According to the REACH Regulation, the phthalates DEHP, DBP and BBP are prohibited in all toys and childcare articles, while phthalates DINP, DIDP and DNOP are prohibited in toys or childcare articles that can be placed in the mouth by children. Furthermore, the amount of cadmium in the stickers is too high (measured value: 440 mg/kg). Cadmium is harmful to human health, because it accumulates in the body and can damage organs and it

may cause cancer. The product does not comply with REACH Regulation. The product poses an environmental risk (chemical pollution) due to the presence of short chain chlorinated paraffin (SCCP) (measured value 1.5%). The product does not comply with the Commission Regulation on persistent organic pollutants (POP Regulation).

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

It is possible that the steel cable for attaching the seat-belt tensioner on the outer side of the seat may suffer fatigue if used for a long time with the seat in certain positions. As a consequence, the steel cable could snap in the event of an accident, thus increasing the risk of injury to the person wearing the seat-belt.
