Engine harness contact with the EGR casting (Exhaust Gas Recirculation) can cause the wires within the engine harness protective sleeve to wear through, exposing the actual wires which may short to the metal EGR valve. This could cause the engine to cut out with minimal warning to the driver and potentially cause a crash.

Product Pipe insulation

Name Phenolic pipe section

Brand BetaPlus

Type / number of model Pipe insulation diameters 15mm to 300mm

Batch number All CE marked product manufactured from 1 July 2013 to 10 June 2015

Product description Thermal foam pipe insulation coated with aluminium foil that is glued to the foam to provide a vapour barrier and is chemically coated. The insulation is used for heating, ventilation and air conditioning, and is suitable for copper, steel and plastic pipe work. Supplied in a cardboard box.

Risk type Fire

Legal provisions (at EU level) and European standards against which the product was tested and did not comply Persons in commercial building where product is used are not able to escape from the building because the reaction to fire properties of the product is D or worse (if not fitted correctly) when claimed to be class B. Thus the product does not slow down the spread of fire in the building, particularly in any open emergency escape stairways with exposed HVAC

(heating, ventilation, and air conditioning) piping.
